

AKAH-Leathergoods

World famous - unsurpassed - cannot be copied

Since 1853 **AKAH** is a synonym for high class handmade leather goods. Since 5 generations "Made in Germany" is the hallmark of the still family owned company in the Cologne area.

Facing food scandals, chemical allergies and air pollution modern human beings long for natural healthy resources. Clothing tends to use merely fibres from renewable raw materials. So more and more dog keepers want to buy collars and leashes made from hides of free-living animals.

Since 167 years hunters and dog friends can rely on toxin-free, vegetal tanning of AKAH leathers. AKAH merely uses hides from Alpine cows, Finnish moose and Mongolian yak bovines. They all tell the life story of a free-living creature with all its natural grains and scars. AKAH never over-sprayed this life biography.

Since centuries hand stitching is the highlight of leather manufacturing. AKAH saddlers are trained for 3 years in the art of sewing with 2 needles and 2 yarns at the same time.

Each hand stitched collar, each hand stitched leash is **UNIQUE** - made by a specialist saddler for one specific dog keeper.

AKAH-Service:

We laser your initials or your name to personalise (max. 30 letters).

Additional charge: € 3,-

Other possible laser motives are wild boar, stag or hunting dogs.

Additional charge: € 5,-

Traditional AKAH hunting bags

These models have been designed around 1853. Generations of hunters have filed on their practicality and interior fittings.

AKAH Gun Slings

MADE IN
GERMANY

The manufacturing of gun slings is one of the specialties of the AKAH saddlery since 1853. There is worldwide no better and more experienced manufacturer.

Handmade by AKAH saddlers: Where the sling has to carry the full weight of the gun, we use only traditional hand-stitching.

Leather: We use only ecological tanned leather: no chemicals, no allergic risk, no environmental stress - nature pure!

AKAH Gun Slings from Neoprene

Made from 6 mm Neoprene - silent and non-slipping. Controlled stretch of the Neoprene (approx. 15%) - thus the gun sling will be shock-absorbent! The AKAH leather craftsmen control during the innovative workmanship the elasticity of the material. Leather applications.

Gun sling from green Neoprene, adjustable in length from 90-120 cm.
6 mm Neoprene thick padding, 55 mm width.

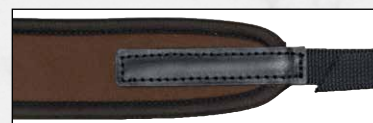

green 67291.001 € 35,90

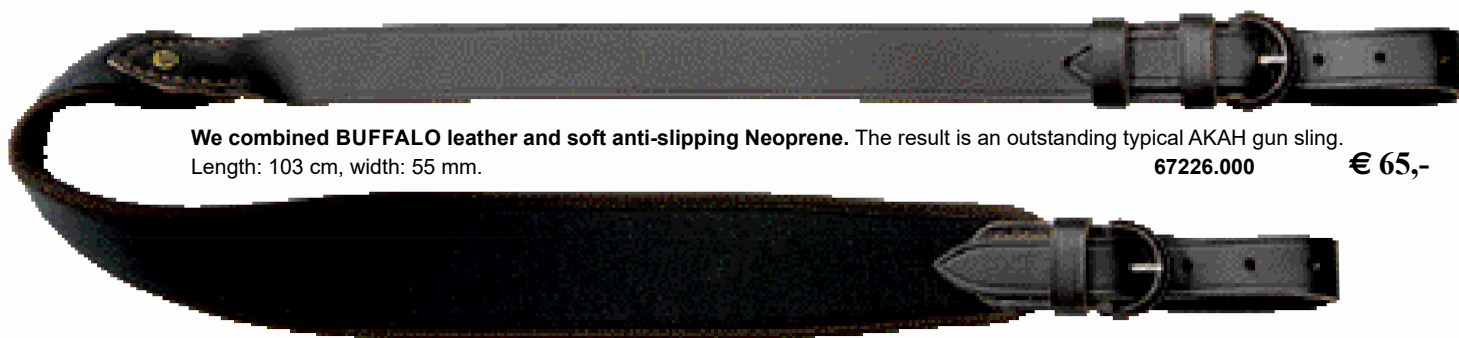

orange 67291.003 € 35,90

black 67291.004 € 35,90

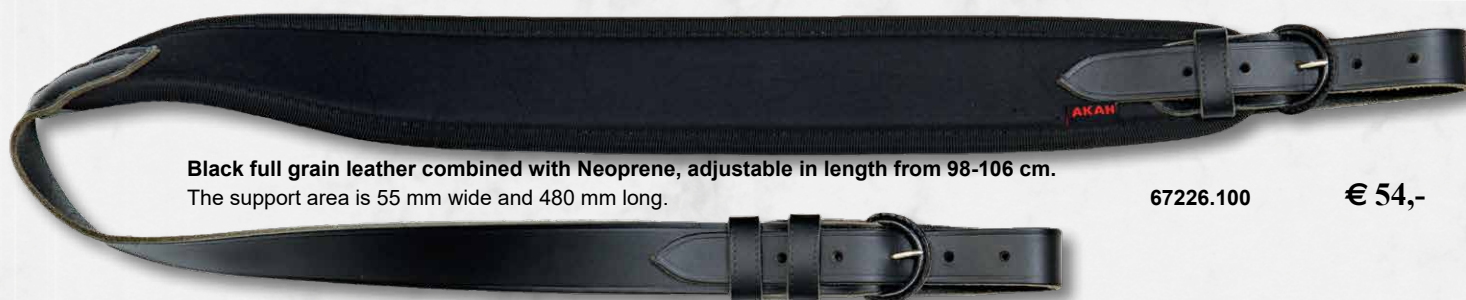

brown 67291.005 € 35,90

Buffalo leather with Pull-Up-Effect

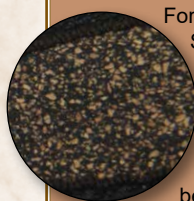

Our pull-up leather is deeply impregnated by hand with oils and waxes. When the leather is bent or pulled, the oils move around within the skin causing lighter tones and interesting colours to become visible. It gives the leather more interesting character that changes with use.

Pull up leather is water-resistant due to intense greasing.

Pull up leather has the advantage of aging well and looking more interesting as they distress. Pull-up leather develops a distinctive and individual leather patina which results in a "used look".

A product with character **for those who admire leather!**

Cork

For almost 2000 years, the bark of the Portuguese and Spanish cork oak is processed into cork: A natural product which preserves and at the same time oxygenates valuable goods such as wine. In recent years, the remains of the cork production are ground into granulate and used for non-slip floor coverings, breathable shoe inlays and even drive belts.

As a worldwide innovation, the AKAH saddlery uses cork as support for rifle slings due to its abrasion, moisture and slip resistance. Natural leather from natural tanning and cork as natural product are complementary at AKAH.

Feel the nature!
