

АКАН

2022 / 2023

Dear Customer,

As soon as the pandemic seemed to be over, we were confronted with new problems: disrupted supply chains, rising inflation, energy crisis, war in Ukraine, the weakness of the euro. As an importer, we are particularly burdened by the disrupted supply chains: On the one hand, these are reflected in drastic increases in freight costs, up to a tripling of costs within one year. On top of that, there are ever greater uncertainties: WHETHER one can get freight space at all; WHEN the ships leave; HOW LONG the waiting times are before unloading and customs clearance.

Therefore, we try to avoid dependence on the Far East. But the challenges are increasing on the purchasing side in all areas. For example, there are now suppliers from whom we sometimes have to order more than 12 months in advance. This means that we often take great risks, but we also try to remain as capable of delivering as possible.

In addition, there are massive price increases for raw materials. The price of iron and steel, for example, has doubled in the last two years. Therefore, neither stable prices nor reliable delivery dates can be foreseen for the duration of this catalogue.

As always, AKAH has worked intensively on expanding its portfolio.

NEW: CZ – the great Czech quality brand – enters the market with its CZ 600 series. In the small bore segment, CZ scores with an expansion of the CZ 457 series. Look forward to many patented features from durability to precision and safety.

NEW: GPO (German Precision Optics) is a real market enrichment with its unique price-performance ratio. Construction, development, design as well as the manufacture of important key components are carried out in Germany. The riflescope and binocular section has been expanded.

NEW: The **gift section** has been completely redesigned and features top-selling new products.

NEW: PSS developed the world's first sow protection jacket to match the best-selling sow protection trousers.

NEW: AKAH leather goods score with sustainability, 100% raw material cycle and manufacturing in Germany. AKAH now manufactures dog leashes and collars from cowhide tanned with olive leaf extract. This leather even received the "DERMA-TEST" seal for absolute skin compatibility.

Trade has also become unsafe during the years of the pandemic. It is all the more important that we, as wholesalers, provide you with the right products that sell well.

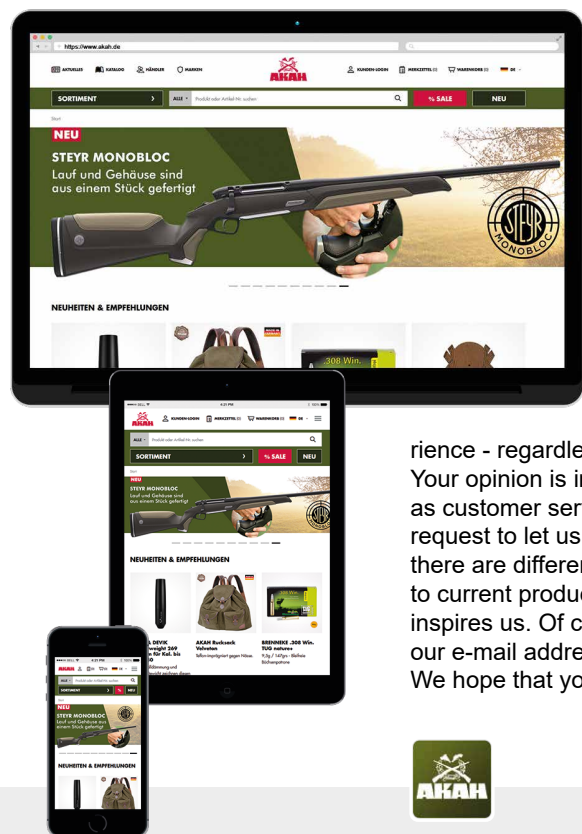

We are grateful to have a stable, dedicated team of staff on whom you can fully rely for advice.

We hope that this new catalogue will help you to generate new ideas and sales.

AKAH on the internet

Mobile internet usage is increasing rapidly. At the same time, however, hardly any user wants to do without stationary access. That's why we are continuously developing our online shop. Thanks to the responsive web design, the completely redesigned site always offers an optimal user experience – regardless of whether it is accessed via smartphone, tablet or desktop.

Your opinion is important to us and for our considerations since we understand our business as customer service. Therefore, we will make it even easier for you to address us with the request to let us know about any suggestions you may have. In case you would like to do so, there are different options available for you. We would be pleased if you follow us. In addition to current product information, you will also find articles about our branch and everything that inspires us. Of course, we will continue to be available as your personal contact. Please use our e-mail address info@akah.de as usual.

We hope that you enjoy our online offer and look forward to your visit on www.akah.eu.

Scan the QR Code with your smartphone and you will directly reach us.

REVOLUTION IN EVERY RESPECT

The revolutionary one-piece bolt action rifle provides more stability and, as a result, more precision. The innovative aluminium synthetic stock with handcrafted leather elements on the forend, cheek-piece and pistol grip offers a perfect grip and elegant design. The trigger unit can be easily removed without tools and stowed in the butt. The butt plate can also be removed in a few easy steps and can be adapted to personal requirements. A successful innovation for modern hunters of tomorrow.

RELIABILITY. An all-steel weapon for absolute toughness made according to military standards.

PRECISION. New „Monobloc“ construction – barrel and housing are made from one single piece for best accuracy.

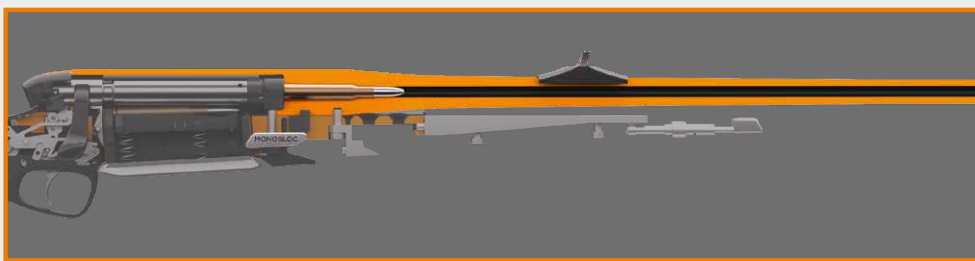

SAFETY. State-of-the-Art safety features like hand-cocking-system, bolt lock and removable trigger unit.

ERGONOMICS. Top ergonomic stock with numerous, innovative options to adapt.

Barrel and housing unite ...

... for highest precision and reliability !

DER ANBLICK

ELEGANT PERFECTION

The STEYR MANNLICHER SM 12® with its ergonomic and easy to operate **hand cocking system (H.C.S.™)** sets new standards for all hunting situations.

The new designed stock with Bavarian cheek-piece and elegant checkering gives this rifle a timeless elegant look.

The **O.B.P.™ (optimised barrel profile)** with new barrel lengths and optimised barrel contour features accuracy and fits perfect in the stock and system. These features, combined with its unique design, result in the ultimate rifle for the most discerning shooter.

Bolt Lock for SM 12®

A new feature for the STEYR MANNLICHER SM 12® is now available! A bolt lock, which prevents from unwanted opening of the bolt when the rifle is in safe position.

STEYR FlexSight

A special thread allows to change from open sights to silencer or muzzle brake without the need of any tools.

Every STEYR CARBON comes with the exclusive CARBON rifle bag, a CARBON cap and a range book. Without surcharge.

ULTRALIGHT AND SOLID

The STEYR CARBON combines the excellent accuracy of a STEYR RIFLE with a extra light and robust carbon fibre stock. Designed by FBT the stock not only captivates with his light weight and the high stability, it is also a "quiet" carbon fibre stock

with the same acoustic characteristics as a wooden stock.

The STEYR CARBON is available with the STEYR hand cocking system (SM12 with combi trigger) or with the 2+1 safety (CL II with combi trigger or direct trigger).

RIMFIRE RIFLE

STEYR MANNLICHER ZEPHYR II

threaded barrel 1/2 x 20 UNF

The small bore rifle sets totally new standards in the segment of rifles for rimfire cartridges. The official journal of NRA "AMERICAN HUNTER" confirmed this in December 2018 by announcing the STEYR MANNLICHER ZEPHYR II as Rifle of the Year 2019. Further Awards received the rifle from GRAY'S BEST and SPORTING CLASSICS.

Bolt action rimfire rifle - features: classic wooden stock with Bavarian cheek piece, checkered grips and handguard. With the typical STEYR MANNLICHER bolt handle and slide safety.

SMALLER – LIGHTER – QUIETER

The STEYR ARMS suppressors achieve best performances with the help of the so-called "Virtual Volume" – an innovative technology that takes STEYR ARMS straight from zero to the top in the segment of sound suppression.

Overbarrel silencer (STEYR BREEZER OSD) is suitable for caliber 6,5-7,62, 6,5x55SE, .30-06Spr., .308Win., .300WM as well as all calibers .30 .

MANNLICHER SCOUT

Due to its short overall length of just 98 cm and the low weight with approximately 3 kg, the MANNLICHER SCOUT is the perfect rifle to be utilized universally.

An additional five or an optional ten-cartridge-magazine, can be accommodated in the hollow well of the ergonomically

shaped synthetic stock. This is not the only detail, which makes this lightweight rifle practical and universal. When necessary, the bipod, which is integrated in the stock's forearm, can be unfolded. Thus, the round will be precise even when no other support is available.

STEYR SSG 08

from € 6.264,-

The ultimate precision rifle, developed by professional shooters for highest demands. The STEYR SSG 08 offers numerous useful features for the perfect shot, including trail spade, various adjustable Picatinny rails (Mil. Std. 1913) for mounting tactical equipment and a lockable Versa-Pod.

STEYR SSG M1

from € 11.220,-

The STEYR SSG M1 marks a new step in evolution of sniper rifles. Based on traditional virtues like precision and reliability a whole range of new features enables the shooter to improve his shooting performance. With Muzzle break, KeyMod™ foreend, foldable aluminium stock, adjustable butt stock, top picatinny rail 30 MOA, heavy duty bolt and Harris bipod.

STEYR HS .50 M1

€ 8.964,-

The STEYR HS .50 opens an era of long-range shooting. The cold hammer forged barrel ensures excellent precision up to a distance of 1500 m. Directly after assembly, the weapon is ready for use. Taking off the barrel complete with optics takes only a few seconds. The 'Side Loading Magazine' enables to switch the magazine without changing the position.

from € 3.360,-

STEYR SSG 04

The STEYR MANNLICHER SSG 04 in cal. 308 Win. and 300 Win. Mag. was designed giving high accuracy, ease of maintenance, reliability and robustness for both sport shooters and law enforcement personal. The SSG 04 comes fully equipped with muzzle brake, Harris-bipod, high capacity magazine, adjustable cheek piece and butt plate.

The STEYR SSG 04 A1 is a slightly modified version of the STEYR SSG 04. With a long rail Picatinny system (Mil. Std. 1913), adjustable cheek piece and butt plate, high capacity magazine and a muzzle brake developed by STEYR MANNLICHER it has every technical detail required for precise results.

RUGER PRECISION RIFLE®

Ruger Precision Rifle™
cal. .308Win

Ruger Precision Rifle™

More Features:

- Ruger Precision Rifle™ Hybrid Muzzle Brake
- 15" free-float M-LOK® handguard of black anodised aluminium
- equipped with a Ruger Precision Rifle™ Short-Action Handguard for improved scope clearance for long-range scopes
- ambidextrous manual safety

Ruger Precision MSR stock with QD sling attachment points features a bottom Picatinny rail and soft rubber buttpad. The left-folding stock hinge is attached to an AR-style buffer tube and accepts any AR-style stock. Barrels can be easily replaced by a competent gunsmith using AR-style wrenches and headspace gauges.

Also included: two 10-round Magpul® PMAG® magazines. 20 MOA Picatinny rail secured with four, #8-40 screws for increased long-range elevation capabilities.

Cold hammer-forged 4140 chrome-moly steel barrel with 5R Rifling at minimum bore and groove dimensions, minimum headspace and centralized chamber. Three-lug bolt with 70° throw features dual cocking cams and a smooth-running, full diameter bolt body.

Oversized bolt handle for positive bolt manipulation, with 5/16"-24 thread for easy replacement. Bolt disassembly tool is stored in the bolt shroud for easy striker channel cleaning.

Ruger Marksman Adjustable™ trigger is externally adjustable with a pull weight range of 2.25 to 5.0 lbs; wrench is stored in the bolt shroud.

CR 308 / CR 6,5 / CR 300

Semiautomatic Rifle

Available also in 6,5 Creedmoor and .300 Blackout

Bigger and stronger: The CR variant in calibre .308Win. / 7,62 x 51 mm NATO can fall back on the higher performance capacities of this universal widely used cartridge. The dimensions of the rifle are adjusted to the calibre, apart from that, it is functionally and economically equivalent to the Haenel CR 223 series. Optional: the single-stage trigger can be replaced by a pressure point trigger.

TECHNICAL DATA

- Action: indirect gas operated
- Caliber: .308Win. / 6,5 Creedmoor / .300 AAC Blackout
- Ambidextrous charging handle, ambidextrous bolt catch, magazine release left & right
- Flash suppressor A2 standard with QD suppressor mount

- AR-15 telescopic buttstock, 6 stages; takes standard AR-15 milspec stocks
- Hand guard with two NAR and two KeyMod rails, removable without tools
- Polymer back up sights
- Single-stage trigger 28 - 35 N or pressure point trigger (two-stage trigger) 17 - 20 N
- Fire pin safety, ambidextrous safety lever, 60°
- Magazine capacity: 10 rounds

HLR – The Impact of Precision

C.G. Haenel from Suhl offers modern precision rifle systems for long-range shooting with the lighter HLR-series. High functionality combined with impres-

sive precision: Haenel sets a benchmark in ergonomics and modularity. The rifles are adapted without tools to the needs of the shooter and the intended use.

HLR 308 Basic

For entry into the professional long-range class Made in Germany: The HLR 308 Basic has everything you need for long-range shooting and was developed with professionals from the police and military. Also available as Compact version with 510 mm barrel length (without picture).

Features: • compatible with MIL Spec AR15 buttstock • modern handguard with 8-10 slot M-LOK for 7 positions • black ilafion coated receiver • muzzle threaded M18x1,5 • cold hammered special steel 22 mm match barrel • Haenel RS 8/9 match trigger

HLR 308 Pro

The HLR in the Pro version with convincing ergonomics: foldable stock adjustable in height and length as well as 3-chamber muzzle brake.

Features: • foldable and without tools adjustable G29 buttstock • modern handguard with 8-10 slot M-LOK for 7 positions • RAL 8000 coated receiver • muzzle threaded M18x1,5 • own produces, cold hammered special steel 22 mm match barrel • Haenel RS 8/RS 9 match trigger • 3-chamber RS 8/9 muzzle brake

HLR 338 Pro

Like HLR 308 Pro but as the most powerful variant in the precision long-range calibre .338 Lapua Magnum for the longest shooting distances.

HAENEL

RS 8 / RS 9 – The whole is more than the sum of the parts

The RS family – made in Suhl/Germany – was developed to meet the requirements of the professional user.

The ergonomic concept is based on a tool-less adjustment of the gun with the support of "quick"

adjustments. The Stock can be adjusted not just in length, but also in height. The cheek-rest, which is also adjustable in height. The precise trigger action can be adjusted for pull resistance, trigger pull and longitudinal position and take

up pull. (Adjustable trigger weight: 10-20 N.) The pistol grip adapter (AR 15 style) allows the user to select from a wide variety of different pistol grips. The modular concept is based on the universally recognised interfaces for accessories.

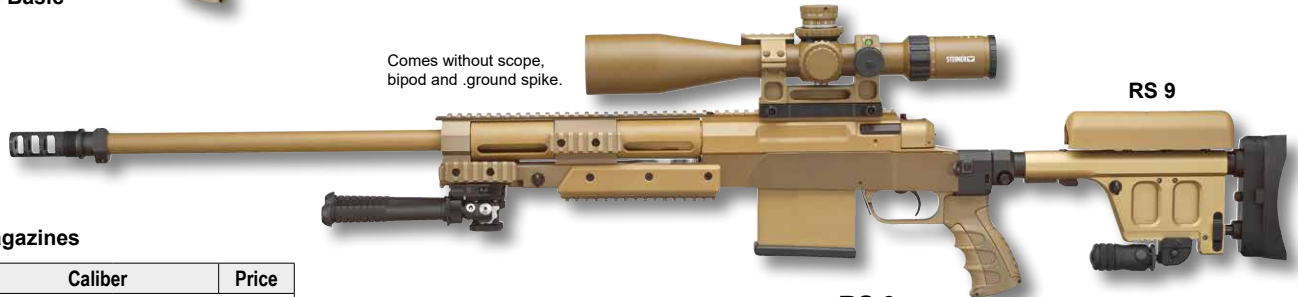

RS 8 Basic

RS 8 Basic

Base for a wide action radius and optimised for shooting on long distances. Optional: bipod, special case.

Comes without scope, bipod and .ground spike.

RS 9

RS 9

The HAENEL rifle system RS9 is the magnum variant of HAENEL RS8. The effective range is 1500 m. Optional: Tactical silencer.

HAENEL JGR

Haenel's new JGR suppressor was developed in cooperation with the Swiss specialist B&T. It fits on every barrel with muzzle thread M15x1. The suppressor has been proven to reduce the peak sound pressure of the muzzle sound by at least 30 dB(C) and can withstand 30 shots in a row in a shooting cinema.*

*Measured values tested with .308 Win.

► JAEGER 10 Synthetic

The Jaeger 10 with synthetic stock stands for robustness: it ensures a good grip whatever the temperature. The fibreglass-reinforced, anthracite high-tech material has a greater breaking strength than wood, is scratch-resistant and homogenous. With the addition of the i-Sight system it gives a choice of sights to suit a requirement.

▶ The new i-Sight system with removable sights and barrel thread M15x1.

Bolt Action Rifle JAEGER 10

A classic, slim shape – made in Germany

This "state of the art" bolt action rifle, is defined by its cylinder lock, being a utility rifle rifle "par excellence" amongst its class, the JAEGER 10 focuses particularly on uncompromising safety and functionality.

The development team at HAENEL have created a rifle that provides the hunter a reliable companion for the hunting grounds: Robust, intuitive and yet with a straightforward aesthetic. The 2020 vintage of this rifle is enhanced with fine walnut – Back to the Woods. As well as the i-Sight system, which provides flexible sight options.

Typical JAEGER 10: Ready for any situation, with or without suppressor or open iron-sights; the threaded barrel is standard. A rifle for forest, field or open hill made with a passion in Suhl, Germany.

Functional and practical:

- Highly stable 6-lug bolt head runs smoothly in the cold forged receiver.
- The legendary cold-forged Suhl barrels – with variable i-Sight system, threaded barrel and muzzle cap.
- Single stage trigger with set trigger facility (except Varmint/ Compact versions).
- A 3+1 shot magazine can be easily inserted. Another option in .308 Win. is the 10+1 Magazine.
- The two-position safety acts on the trigger rod. The rifle can also be opened when the safety is engaged.
- With a Remington 700 mount preparation – anything can be fitted to it. From Picatinny mounting rail/ rings to the universal Dentler system.

Fast bolt action: an opening angle of 60 degrees is sufficient.

Safety with separate chamber lock – for unloading while in safe condition.

threaded barrel M15x1

▶ JAEGER 10 Timber LX

The Jaeger 10 Timber LX impresses with its details: a fine grade 4 walnut stock, receiver and barrel with Illaflon coating, an optimised bolt handle with a ball in walnut. Steel and wood form a symbiotic combination on this elegant and precious rifle. Removable i-Sight system.

A-Bolt 3+ Hunter

Grade 1 walnut stock. Pistol grip. The 23 mm bolt handle knob can be replaced with other knobs that are available as accessory items. Without sights. With M14x1 threaded first-class barrel.

17795 ...

€ 995,-

A-Bolt 3+ Composite Threaded

The A-Bolt 3+ Compo may look sober at first glance, but it offers an extensive range of customisation options. The stock comes with a black cheekpiece that can easily be swapped out for one of a different colour or for an adjustable comb (accessories against surcharge). With M14x1 threaded first-class barrel.

17793...

€ 849,-

A-Bolt 3+ Browning reliability to everyone!

First-class barrel, fast and safe locking /unlocking system, removable magazine and Inflex Technology anti-recoil pad – the A-Bolt 3 needs no introduction. This rifle is intended for hunting from blinds and combines pinpoint accuracy and a rock-solid build with excellent value for money.

• Inflex anti-recoil butt plate

The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the butt stock slightly away from your face in order to reduce the recoil and upward motion of the gun.

• Unlocking button for the bolt

Ensures optimum security and is ideally placed on the back of the pistol grip. Can be opened in the safety "on" position.

BLR Lightweight Hunter Threaded

threaded barrel M14x1

BLR Lightweight Tracker

BLR Lightweight Tracker

This gray lever-action rifle comes with a laminated plywood stock, and has been treated to a new ultra-strength "Cera-kote" surface treatment for unbeatably long service life. The sights and short barrel make this an excellent gun for driven hunts and tracking.

BAR MK3 Eclipse Fluted

BAR

The most reliable semi-automatic in the world

Browning is the undisputed leading specialist of semi-automatic rifles, with 50 years of experience in the field. It owes its title to the quality of its firing mechanisms, the gentle gas-operated action that results in minimum recoil feel, its reliability, but also, and most importantly, to the fact that it has always moved ahead to bring you ever-higher performance.

• New trigger system

- for crisper, shorter and incredibly direct

When you want absolute precision the new trigger system is crisper, shorter and incredibly direct. The trigger system offers you a clear and direct start leading to exceptional experiences.

• Interchangeable butt-plate:

The Bar and Bar Zenith are fitted with interchangeable anti-recoil butt plates Inflex II of different thicknesses are available: 1.2cm, 2.0cm and 2.5cm. These butt plates enable you to adjust the length of your stock without any difficulty.

• Hand Cocking System - safety guaranteed

The manual cocking system lets you literally cock your rifle, by moving the arming plunger forwards, which puts the hammer springs under load. Your gun is now ready to fire. You can disarm your gun just as easily by pushing the button.

• Removable magazine

BAR MK3 Hunter Gold

The contrast between the black receiver and the gilt flash of the logo will appeal to your finer taste. Add in the grade 2 oil-rubbed wood and you have a rifle you will be proud to take to your post.

X-Bolt SF Composite Brown HC Adjustable Threaded

This X-Bolt Composite Brown Adjustable in a brown finish includes an adjustable black comb for an adaptable gun fit. It comes with an over sized two-piece bolt knob. The fluted barrel is also threaded (M14x1) ready for mounting a sound moderator or muzzle brake.

16725 ...	€ 1.435,-
-----------	-----------

X-Bolt SF

Missing is no longer an option!

The stand-out innovative feature of the X-Bolt SF is the Super Feather Trigger system that gives this rifle a firing quality that feels unbeatable. It also has a new lock-release button that lets the user open the bolt and unload with the safety on.

The new design imparts better balance and highly functional operation in a more compact rifle, while the floating barrel provides the vital finishing touch needed for flawless accuracy.

- **Super Feather Trigger:**
 - zero take-up
 - minimum overtravel
 - minimum creep.
 - Clean, short, crisp and direct.

INFLEX II
TECHNOLOGY

SUPER
FEATHER
TRIGGER

- **Bolt-unlocking button.**
- **Inflex anti-recoil butt plate**
This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the butt stock slightly away from your face in order to reduce the recoil and upward motion of the gun.
- **Rotating magazine.**
- **Utmost accuracy**
A free-floating barrel is essential for utmost accuracy. The X-Bolt SF's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel / breech block assembly at two points with respect to the forearm, at the front and at the rear.

Maral Composite Brown HC Adjustable

threaded barrel M14x1

MARAL SF

The most effective straight-pull action rifle:
safer, more ergonomic, faster.

With all its undeniable experience in making hunting rifles, BROWNING® has innovated yet again in the field of straight-pull action rifles with the new MARAL. A real technical revolution, its quick-loading system offers shooters incomparable speed and unprecedented firing comfort. BROWNING® combines this new technology with all the experience it possesses in barrel-making and its expertise in safety with its 7-lug bolt, which already equips over a million rifles throughout the world. Efficiency can also be measured when you look at the breech, which is always contained inside the bolt-casing. This enables shooters to keep their target in their sights continuously when firing.

• New trigger system

When you want absolute precision the new trigger system is crisper, shorter and incredibly direct. The trigger system offers you a clear and

direct start leading to exceptional experiences.

• Hand Cocking Safety guaranteed

• **Breech contained inside its casing:** no inconvenience when reloading.

• Easy, ergonomic handling

• Rapid stock dismantling system

• Removable magazine (Nordic & Brown)

• 7-tenon bolt - safety guaranteed

A bolt renowned for its sturdiness, which guarantees exceptional safety and accuracy.

• Quick Reloading System

The servo bolt return system combines maximum safety, speed and efficiency. Thanks to the time gained in the reloading phase, shooters can concentrate on their firing action.

MARAL Composite Nordic HC Adjustable

The Maral SF composite Nordic HC gives prominence to black for its gunstock and fore-end, giving a new look to this rifle which has quickly taken the lion's share of its category. Close to its cousin in brown composite, it is equipped with a threaded barrel (M14x1) and a Nomad Hybrid mounting rail for the telescopic sight. Capacity: 10+1 (.30-06Spr.), 9+1 (.308Win.), 3+1 (9.3x62)

17749.6..

€ 2.229,-

MARAL Compo Nordic Reflex Adjustable Thr.

The exponential sales of the Maral prove that once you give it a go, you can't say no. This version of the Maral is the Nordic Reflex composite. Nordic refers to the black colour scheme with grey grips, while the term Reflex indicates that it is fitted with a K1 red dot sight from Kite Optics mounted as low as possible to the barrel. Positioning the sight up to 6 mm lower than it would be on the receiver adds that little extra boost to the Maral's natural speed, ergonomics and versatility.

16741.1..

mit Kite K1 € 2.835,-

MARAL Composite Brown HC Adjustable

Here, buttstock, grip and fore-end are brown in contrast to the black of the barrel and the receiver, giving it discretion and distinction. This fine straight-line action rifle with a threaded barrel (M14x1) and an adjustable cheek-piece also has a muzzle brake (T1), which can significantly reduce recoil and the extent of muzzle rise in case of successive shots. The Maral SF Composite Brown HC is designed to receive a telescopic sight with its Nomad Hybrid base rails. Magazine capacity: 10+1 (.30-06Spr.), 9+1 (.308Win.), 3+1 (.300WM)

17749.1..

MAXUS 2

The reference among gas operated shotguns
– softest shooting semi-automatic ever!

- Speed Load Plus - the value added extra you only get from Browning.**
Every second counts when you're hunting small game. Speedloading is a Browning proprietary technology that saves you precious time. When you insert the first cartridge into the magazine with the breech open, it is chambered straight away and the bolt springs shut.
- Power driven gas system.**
The Power Drive Gas System uses larger escape valves to remove gas more quickly with heavy loads. A brand new patented design for an integrated valve keeps residue out side the mechanism for cleaner functioning. The piston has a run increased in length by 20% to make it even more reliable with light charges. The system works with loads of 24g to 64g.
- Magazine cut-off**
The magazine cut-off for unloads and replaces the chambered shell with a new load without having to cycle the new shell from the magazine.
- Fully balanced gun.**
The perfect balance of the Maxus II will give you an even more natural swing!
- Fully adjustable stock.**
The drop and cast of the Maxus II can be altered using the six spacers included in the box, as well as the 7 mm stock insert and 32 mm Inflex II recoil pad.
- Full comfort stock.**
The Inflex II is one of the best performing recoil pads on the market, directing the force of the recoil downwards and away from the shooter's cheek. The stock also features a Reactar gel cheek piece for even better face protection, especially when firing high-gram cartridges.
- Ergonomics.**
Overmoulded forearm and pistol grips keep the gun securely in your hand even when it's raining. The oversized bolt handle and trigger guard make the Maxus II easy to handle, even with gloves on.
- Versatile.**
The Maxus II delivers outstanding performance in any setting. This shotgun comes with 5 Invector+ chokes for your every need. The Maxus II is also capable of firing a wide selection of hunting cartridges, from 28 grams to the largest loads available in gun stores.

A5 One

A5 Grand Passage MAX5

A5

Built to last: 100.000-round warranty!

The A5 has been designed to offer unmatched reliability, speed and low-recoil feel in a semi-automatic inertia shotgun.

• INFLEX II

The Inflex II Technology recoil pad is the next generation of the most recoil absorbing pad available. A softer new outer material provides even better recoil absorbing performance and is super slippery to prevent snagging on clothing when shouldering. This second generation has added a new absorbent material that slips perfectly on clothing.

• Humpback

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight and in this way helps you to aim naturally with faster targeting.

• Reloading system

The patented Speed Load Plus loading system sends the first shell in the magazine directly into the chamber. In addition, thanks to the rapid unloading system, unloading operations are both simple and fast, without

needing to operate the bolt for sending each shell into the chamber.

• Kinematic Drive System

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. The beauty of the Kinematic Drive™ system resides in its simplicity of design, which enables it to operate in a regular, reliable way, with any type of load, and under all extreme conditions of weather, temperature, moisture or fouling.

• Vector Pro™ barrel

The principle of the Back-bored™ Vector Pro™ barrel is to improve the diameter of the bore of the barrel and to extend the forcing cone which provides three advantages:

- increased speed, improved pellet penetration
- improved pellet grouping
- reduced recoil.

• Chokes

The Invector DS™ Cal 16 chokes provide unrivalled performance by providing an optimal length of 72 mm, an exclusive internal shape and a patented gas seal segment.

A5 One

The A5 One is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5.

B 725

B725 Hunter Grade 5

B725

Innovative over-and-under shotgun with legendary reliability!

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns. Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525, which make it the most outstanding over-and-under shotgun on the market.

• INFLEX II recoil pad

A Inflex II recoil pad is fitted on all B725 shotguns as standard. This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. This exclusive material makes shouldering easier. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock. In this way, you can adapt your B725 to your own physique and also adapt it depending on the hunting season.

• New high-performance mechanical trigger system

This new firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides great ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

• Low action frame

The low action frame provides the following benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manoeuvrability and effectiveness when shooting. 10 years guarantee action frame.

• Back-bored Vector Pro™ barrel

The principle of the Back-bored™ Vector Pro™ barrel is to improve the diameter of the bore of the barrel and to extend the forcing cone which provides three advantages:

- increased speed, improved pellet penetration
- improved pellet grouping
- reduced recoil.

• Invector DS™-Chokes

The new Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80 mm, an exclusive internal shape and a patented gas seal segment.

B725 Hunter Grade 5

This luxury version of the B725 possesses a delicate, entirely hand-finished engraving. Its top-quality grade-5 wood is oil-rubbed. The gun is delivered with a deluxe opaline case for safe and stylish transport.

INFLEX TECHNOLOGY

BACK-BORED

B725 Pro Trap Adjustable 12M

This sports shooting rifle includes all the special features that made the B725 Pro Trap a success: the Back Bored Vector Pro barrels, 12 mm top rib, Hi-Viz sights, and a wide selection of 8 Invector DS Extended chokes. Browning has pushed performance potential to the extreme by adding two striking innovative developments to this famous model's original qualities, and further enhancing the balance of this over-and-under shotgun that was designed to be an extension of the shooter's body: a fully adjustable cheek piece; and a stock and barrel assembly with the Pro Stock and Barrel Balancers technologies respectively. The result is a B725 Pro Trap that is fully adjustable!

12358.012 76 cm

€ 4.730,-

B725 Pro

Shooter and gun as one!

The B725 Pro range has been designed to provide a perfect gun fit whether you're shooting sporting or compak.

• PRO BALANCE System

The Pro Balance System allows shooters to fine-tune the balance point for a perfect mount and swing. Adding weights (optional) to the stock helps balance the shotgun, aids follow-up shots and the additional mass reduces felt recoil.

• Interchangeable recoil pad

The B725 Pro range is supplied with interchangeable 15, 20 or 25 mm recoil pads. They will enable you to adjust the length of your stock without the slightest difficulty.

• TRIPLE TRIGGER System:

The Triple Trigger System fine tunes finger-to-trigger reach on target models. Includes three trigger shoes: Wide checkered, narrow smooth and wide smooth canted.

• Invector DS™-Chokes

The new Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80 mm, an exclusive internal shape and a patented gas seal segment.

B 525 SPORTER

B525

Hand fitted to create the best there is.

During the making of a B525, the gun moves from one gunsmith to the next to be entirely hand finished, thanks to the expertise acquired over many years by each of the gunsmiths. This is the only shotgun on the market at this price level that is hand fitted during production to such a high performance level, making each shotgun truly unique. Fitting important parts (barrel, action frame, forend) is done by hand using traditional methods (using red ochre) so as to make the Browning B525 the reference in shotguns. The attention paid to detail when manufacturing and fitting every Browning B525 is unique, just like the "Browning feeling" when the gun locks on closing before shooting.

- **Flawless mechanics for outstanding reliability**
 - Action frame made from indestructible forged steel.
 - Extra-wide flat bolt and hinge pin.
 - Impact wheel ejectors for cleaner ejection.
 - Chrome-plated barrels and chambers.
- **Inflex II recoil pad**
- **Back-Bored barrel**
The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.
- **Invictor Plus chokes**

B525 Sporter 1 12M

Besides its Back-Bored Vector Pro barrels, its 10 mm bat-tue rib and the oil-rubbed finish of its grade 2 walnut elements, the B525 Sporter 1 possesses 4 Invictor + chokes and the Auto Safety system. Just as efficient for sporting clays as for hunting, the B525 Sporter 1 does not lose in aesthetics everything it has gained in reliability.

B525 Sporter 1 Trap Forearm 12M

The guiding principle of the B525 Trap One is to make efficiency available to all. And the price is intended to let everyone enjoy Browning's sports shooting expertise. The stock and the fore-end have been shaped to meet the specific requirements of clay shooting in full. The stock is prepared for mounting counterweights so you can find your optimal balance point. The trigger is adjustable and the stock can be extended using the Inflex II butt caps.

12480.012 76 cm

€ 2.320,-

B525 Ultra XS Pro AC 12M

The shotgun is supplied with eight Invictor Titanium extended chokes, two spacers, three Inflex recoil pads and three trigger shoes, and can thus be balanced on demand thanks to a clever weight and counterweight system (gunstock and barrel). The B525 Ultra XS Pro Adjustable is equipped with an adjustable cheek-piece and a trap fore-end. Its technical innovation in no way impairs its elegance, as can be seen in the new engraving decorating its action frame and the T4 wood with oiled finish of which it is made.

WINCHESTER

SX4

SX4 – Lighter, faster, ergonomic!

The new Super X[®]4 is the autoloading shotgun designed for speed.

Features:

- INFLEX recoil pad
- Stock lengths can be adjusted with inserts
- Better ergonomics
- Ambidextrous safety
- Wider bolt handle and release button
- Active Valve System
- Back-bored barrel

€ 1.013,-

SX4 Field 12M

Satin-oil finished walnut buttstock and matted black receiver. The Back-Bored™ barrels and Active Valve system give you the freedom to use any type of cartridge from the lightest to the heaviest, including steel shot.

► NEW – available as left-hand version

13228.012 (66 cm) | 13229.012 (71 cm)
13230.012 (76 cm)

€ 997,-

SX4 Stealth 12M

Tired of camo patterns, wooden stocks and black composite guns? The supreme style of the SX4 Stealth will catch your eye and capture your heart. The hunting green colour scheme is injection-dyed into the mass to retain your SX4's original looks through the years. It is chambered in 12/76 to handle a wide selection of cartridges, right up to the heaviest. And the 30 mm Inflex pad absorbs recoil like a champ so you don't have to.

13215.012 66 cm
13216.012 71 cm
13217.012 76 cm

€ 976,-

SX4 Composite 12M 3,5"

Composite stock. 26, 28 and 30-inch Back-bored™ barrels, three Invector Plus chokes, Truglo fibre-optic sight with top-mounted long front sight, and Quadra-Vent gas ports for reduced recoil feel.

► NEW – available as left-hand version

AKAH Rifle Rest

Protection of registered design
GM 202005003219.0

The models on the market couldn't convince us. That's why we developed our own rifle rest and applied it for patent protection. **This distinguishes us from our competitors:**

- Made of soft moose leather
→ fixes the rifle very well.
- The moose leather is impregnated
→ does not absorb water.
- Bottom side is padded with non-slip rubber
→ absolutely skid resistant.
- Lateral extensions are weighted with lead strips
→ for additional skid resistance.
- The rubber facing is removable which enables the hunter to change the filling.

Luxurious AKAH Gun Cases

– famous all over the world since more than 166 years –

They show the know-how of the AKAH-saddlers. Before AKAH starts manufacturing such an exquisite case, a detailed discussion with the customer must precede.

- The AKAH-carpenter makes the wooden case.
- Each case fits exactly to one single gun and the accessories.
- High quality brass fittings and combination locks.

- Optics are protected by soft felt or velvet lining.
- Handmade grips by our saddlers. This will last at least some generations.
- The leather cover is individually chosen by the customer.

A second look will confirm all details are masterly done – each case is unique.

recommended retail prices

Stalon®

Quality products from Lapland Sweden

Using a silencer eliminates the muzzle blast that occurs in front of the barrel, which reduces noise significantly.

STALON is one of Europe's largest manufacturer of suppressors for hunting rifles, located in Swedish Lapland. STALON silencers are made of aluminium. They can be disassembled and most of the are reflex type, i.e. they mostly sit back over the barrel to reduce the weight at the front. STALON silencers are primarily intended for hunting weapons.

STALON Suppressor of the X-Series

Test 4/2021

Price-performance ratio winner "Hunt from a raised hide".

The X-series consists of four different models with varying length, weight and sound reduction adapted for all types of hunting. Common to all models is that the fronts (Front 108 / Front 149) are interchangeable, which means that the front can easily be replaced or supplemented to another model and/or caliber.

XE108, together with the X108, are the two shortest models from the X-series, the more effective XE149 is recommended if maximum sound reduction is needed for magnum/ large calibers.

For the smaller and/or standard calibers, X108 or X149 is strongly recommended.

AKAH Neoprene Covers für Stalon

The 3 mm Neoprene cover for the Stalon silencers safeguards your suppressor against scratches and impacts that occur with normal use.

Furthermore, the 1100 Cordura insert mitigates the mirage caused by the heat coming off the suppressor in the target range. The neoprene cover also reduces noise when the repeating rifle gets in contact with other objects.

STALON Suppressor VICTOR / VICTOR L

VICTOR is smaller and lighter but with great performance. **VICTOR** is primarily for smaller calibers from .22 – 6,5mm but even for .308 Win. In comparison with the W-series **VICTOR** is lighter, and thinner with a diameter of 41mm. The suppressor is made crafted in a single piece and has no interchangeable front-module. **VICTOR** is the natural successor of the Compact-series and will be released in two versions **VICTOR** and the extended version **VICTOR-L**.

Made from high quality hard anodized aluminium, thread-inserts and most exposed inner parts are reinforced and made of stainless steel. Available in a wide range of threads.

STALON Suppressor for Rimfire Rifles

Stalon RM

Stalon RM is the small and compact silencer for rimfire calibers. The unique design makes it very easy to dismantle and clean. It is made of anodized aluminium with steel thread insert that provides a very sustainable and durable silencer. Also available for air rifle „F“-versions up to 7,5 Joule.

Stalon RC (Rimfire Core)

Stalon RC silencer developed for small game hunting and shooting, from caliber .17 to .22. The unique single core construction inside of Stalon RC is designed to reduce weight and noises to a remarkable level but also to simplify the process of cleaning and maintenance.

FREYR & DEVIK

Freyr & Devik is synonymous with efficient, elegant, and lightweight silencers. Form and function join to make a silencer that harmonizes with the classic lines of a hunting rifle while offering an unprecedented suppression to weight ratio. The elegant, curved shape is also highly functional. It contributes to the low weight of the silencer and at the same time allows it to glide through vegetation. Our design is the first and so far, the only silencer design to be honored with the prestigious *RedDot design award*.

Materials

These silencers utilize Grade 5 Titanium on thread and core of the high-pressure chamber. Here, the temperature can exceed the melting point of aluminium. Titan's superior characteristics in terms of weight, strength and temperature resistance is therefore essential to create a light, robust silencer with longevity. Freyr & Devik is using high-strength aerospace aluminium on the parts that are less exposed to heat, such as encapsulation and anterior lamellas. This is a material with a superior relation between strength and weight, which enables a very light but strong construction.

freyr & devik
Sound suppressor technology

Featherweight 269 Titanium

Featherweight 269 Titanium is the silencer for those who need maximum suppression. Even though it has a very high rate of suppression it only weighs remarkable 269 grams. Its light weight makes for excellent handleability and retains the natural balance of the rifle.

Test 4/2021

Price-performance ratio winner "Stalking & Mountains". Design award for most attractive model.

Featherweight 196 Titanium

Featherweight Titanium 196 is a truly revolutionary product when it comes to weight and efficiency. Weighing in at only 196 grams it offers the same level of suppression as far heavier and bigger suppressors. More accurately the Featherweight Titanium weighs only 6 grams per dB sound reduction. This translates to a lot of sound suppression in a light and small suppressor. This low weight and size preserves the natural balance of the rifle.

Featherweight 149 Titanium

Featherweight 149 is the silencer for those who are looking for lightest hunting suppressor possible. Weighing in at only 149 grams It still offers a serious level of suppression in a small and remarkably light package. At this weight it has hardly any effect on the natural balance of the rifle. This makes it ideal for driven hunts, stalking and when handling dogs. This suppressor is ideal for smaller calibers.

FREYR & DEVIK

Ultimate Silence 3D Series

The Ultimate Silence 3D technology with its 3D printed Grade 5 Titanium core, pushes silencer design into a new era with its unique patent pending baffle design. The "selective laser sintering" technology used to make the core of the silencers allows for a new level of design freedom that can produce highly effective aerodynamic baffles. The Wedge brake technology is an innovative internal muzzle brake effectively traps the combustion gases and reduces the recoil.

Featherweight 88

The Featherweight 88 is a suppressor for .22WMR, .22LR and .17HMR small caliber firearms. This can be easily opened for cleaning. It has a noise reduction of 35 dB with a weight of 88 g and a length of 123 mm, 113 mm in front of the muzzle. Also available in "F" Version.

New

Length in front of muzzle: 138 mm

Ultimate Silence 3D - 131

The UTS 3D-131 is so light that it is almost unnoticeable on the weapon. This model weighs just 131 grams and offers an unprecedented "suppression-to-weight ratio". It is well suited for light weapons and also for hunting situations where the balance of the weapon is of greatest importance.

New

Length in front of muzzle: 122 mm

Over barrel length: 48 mm

Ultimate Silence 3D - 231

The big brother of the UTS 3D-131, suitable for Magnum calibers up to .300 Win. The sound suppression rate is 32-38 dB, with a weight of just 231 grams, this is related to the 3D printed titanium core.

New

Length in front of muzzle: 151 mm

Over barrel length: 62 mm

Ultimate Silence 3D - 281

This is the ultimate silencer for those who want maximum noise reduction, suitable for both standard and magnum calibers. With a weight of 281 grams and a length of 151 mm in front of the muzzle, it is a lightweight silencer with a class-leading noise reduction.

New

Length in front of muzzle: 151 mm

Over barrel length: 62 mm

Ultimate Silence 3D - 338

The largest silencer in its series, suitable for standard and magnum calibers up to .338 Lapua. Also like the smaller models, it has a high level of sound absorption compared to its weight. The silencer for those who want large calibers and maximum reduction.

Please note the legal regulations.

GUN PLUGS

Protect the barrel from rain and dirt.

The gun plugs were developed in cooperation with experienced trackers. They protect firearms from rain, dirt and other contaminants that can not be harmless. The Gun-Plug is simply propelled out of the barrel by the shot air pressure between bullet and plugs. For cleaning purposes, remove easily the Gun-plug with finger-nails. It is variable usable from caliber 7 mm to 9.3 mm. 10 pieces, consisting of five yellow and five red plugs.

KalixTeknik CR2 Adjustable Comb for arms with composite stock

Kalix Teknik CR2 is an adjustable cheek support system that would be light weight and durable. No tools needed for height adjustments at all – no knobs or locking screws. This make this product perfect for any wooden stocked rifle. With tolerances of hundredths of a millimetre it guarantees a stable operation. Lock built in so that you can not loose cheek support. Stock preparation by gunsmith required. Suitable for right and left shooters.

Rimfire Rifles

CZ 457

The CZ 457 family is distinguished by its highly sophisticated modular design:

- **More accurate**
- **More safety** by lateral safety with firing pin indicator
- **Extremely durable anti-corrosion finish** on metal parts
- **Quicker reloading** because of a 60° bolt lift instead of 90°
- **Lighter striker** for increased speed and reduced vibration during firing

NOT JUST A GUN! CO₂

REAL EXPERIENCE.

COLT

MADE IN GERMANY

COLT Government 1911 A1

CO₂ powered pistol, 8 - shot loading clip, rifled barrel, adjustable sight. Double-action. Nylon grips.

Barrel: 5"; **Overall length** 220 mm, **Weight** 1,080 g. V₀ = 120 m/s; **Cal.** 4.5 mm (.177) BB

blue 23370.000 € 269,90

COLT Special Combat Classic

Heavy all-metal version of the Colt classic. The slide, in a stainless steel look, rests on a frame with a Weaver rail. The removable magazine holds both the BBs and the 12 g CO₂ cylinder. Double-action, safety catch.

COLT M45 CQB

Licensed replica of the latest M1911 Close Quarter Battle Pistol for the US Marines. Heavy all-metal construction with realistic blowback effect. Commander Hammer, Memory Beaver Tail and ambidextrous safety. Frame with Picatinny rail according to Mil-Spec 1913. Single Action.

COLT Defender

Compact, handy, especially easy to use: When the magazine catch is pressed the single-part grip plate pops out, revealing the 12 g CO₂ capsule and built-in stick magazine.

Double-Action Only.

Finish: full metal.

KK500

KK500 Blacktec with black BLACKTEC stock

A genuine match rifle at the price of an entry-level gun. Due to the many individual adjustment possibilities and the option to use the system and the stock as right- and left-handed shooter, there are no unfulfilled wishes. With its light weight, the KK500 BLACKTEC is equally suitable for all age groups.

KK500 Anatomic with ANATOMIC laminated stock

Thanks to its special technical features, unequalled shooting precision, new trigger and new ergonomic stock, the rifle is designed primarily for shooters competing at the national and international level. The use of high-grade materials and precise workmanship down to the smallest detail ensure you will have a competition rifle of the highest quality for many years to come.

Choice of mechanical or electronic trigger. Incl. Centra sight riser, INSIGHT-OUT rear sight, Centra front sight tunnel and gun case.

KK500 Expert with EXPERT aluminium stock

Developed in collaboration with Henri Junghänel. Individual adjustments to the KK500 aluminium stock. The continuously adjustable fore-end, the three different grip sizes each with two different grip geometries, the slimline ALL-IN-ONE cheek piece with interchangeable rounded or edged contact surface, the butt stock offsettable using a parallelogram joint, and the newly designed and sturdy EXPERT hook butt plate – all of these ensure a perfect firing position for consistent accuracy.

Choice of mechanical or electronic trigger. Incl. Centra sight riser, INSIGHT-OUT rear sight, Centra front sight tunnel and gun case.

KK500 Ultra Light with S grip laminated wood „Red Devil“

The KK500 „Ultra Light“ is certainly a real eye-catcher. For shooters who prefer a short and light rifle. Incl. SPY Centra diopter. WING chest rest in accordance with new rules.

LG400

LG400 Monotec

The new Monotec stock combines the versatile adjustment possibilities of the KK500 stock with a unique suspension. The action is not mounted in the usual fashion on the receiver but instead right on the barrel. The advantage is that vibrations from firing are prevented from being transmitted to the barrel, where they can adversely affect shooting performance.

the GSP is more than competitive

WALTHER GSP500 Classic

Advanced Weight Engineering: The design of the GSP500 follows precise targets in terms of overall mass, centre of gravity, mass distribution and balance of the weapon. Low-lying barrel bore axis. Stress-free barrel bearing for uncompromising shooting precision. Integral front sight in three front sight widths. Removable and interchangeable rear sight (precision/duel). Rear sight width and height continuously adjustable. Large, ergonomically optimal cocking handles with integrated breech-lock buttons that can be operated from both sides. Also for the discipline "rapid fire". Slide Control System with specially tuned breech buffer, trigger system module, removable at any time. Adjustable trigger pull and travel. Anatomic Grip, sizes S/M/L (right), M (left), adjustable palm rest, Blue Angel laminated wood. Weight: 1,040g

.22LR

1911 A1 .22 l.r.

The pistols of the 1911 .22lr platform licensed and tested by COLT are authentic COLT Government models.

An outstanding feature is the slide – it is CNC machined from high-quality aluminium, thus less loaded ammunition can be utilized without issue.

Features of all Colt 1911:

CNC machined high-grade aluminium slide. 1911-style field stripping. · Rubber grip. SA trigger. Authentic half-cock mechanism. Accepts aftermarket accessories. Serrations at the rear end of the slide. Original style safety lever. Straight MS housing. Extended magazine release.

Additional features of the A1:

Low mount combat-style sights with 3-dot system (rail only). Grip safety.

P22Q .22 l.r.

The “small” defensive pistol.

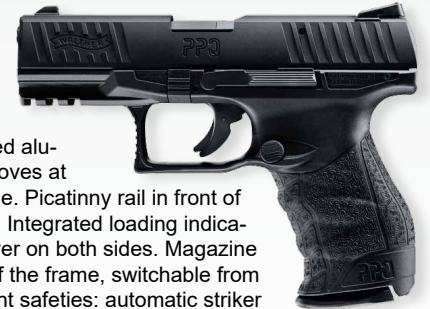

Interchangeable backstraps ensure an optimum hand position. Modern polymer frame - compact design and low weight. Single and double action. All functional elements are ambidextrous. Loading status indicator, magazine safety, hammer safety and drop safety for maximum accident protection. Adjustable rear sight and interchangeable 3-dot front sights. Barrel can be easily switched between standard and target version.

PPQ M2 .22 l.r.

Ideal for low-cost training.

Polymer frame with anodized aluminium slide. Easy-grip grooves at the front and rear of the slide. Picatinny rail in front of the trigger (MIL-STD 1913). Integrated loading indicator. Elongated slide stop lever on both sides. Magazine release button at the side of the frame, switchable from left to right. Two independent safeties: automatic striker safety and mechanical drop safety, integrated in the trigger blade

PPQ M2 Tactical 4,6" .22 l.r.

Special version with 4.6" silencer barrel and ½" x 28 TPI thread.

1911 RAIL GUN

.22 l.r.

Additional features: Skeleton trigger. Extended Beavertail grip safety. Open work hammer. Low mount combat-style sights with 3-dot system (rail only). MIL standard rail.

1911 GOLD CUP

.22 l.r.

Additional features: Skeleton trigger. Extended Beavertail grip safety. Target rear and front sight. Open work hammer.

DEFENSE

PPK

A true legend

The PPK features a single-action/ double-action trigger that decocks when rotating the safety down into the safe position, first introduced by Walther. To this day, the PPK is still one of the most sought after concealed carry pistols on the market.

PPK/S

Powerful service pistol

An evolution of the classic PPK, the PPK/S maintains the timeless features, essence and the elegance of the original with an additional extended grip allowing for added capacity and improved ergonomics.

DEFENSE

PDP Full Size

PDP

Performance Duty Pistol:

The advantages of the powerful service pistol PDP at a glance:

- **Performance Duty Trigger**
The PDT trigger breaks at the pressure point at 25 N. Short reset: allows consistent top performance.
- **Ergonomics and intuitive targeting**
Top pointability - excellent aiming performance. SuperTerrain Serrations, raised grip grooves. Performance Duty Texture: outstanding grip in all conditions.
- **Optics Ready**
All models are optics ready.
- **100% Modularity**
Picatinny rail, interchangeable magazine holder, two grip lengths, three barrel lengths.
- **Reliability**
Stepped cartridge chamber for significantly better lidded action: less fouling, longer cleaning intervals. Gets performance out of the ammunition.

Includes 2x magazines, 3x backstraps and a high-quality pistol case with PDP design.

PPS M2 Police Set

Handy compact pistol

The frame and slide have the current Q line. Magazine release button at the left of the frame. The M2 trigger blade and the embedded trigger safety now have a more comfortable shape, which especially facilitates rapid firing. A 3-dot steel sight with phosphorescent markings comes as standard. With three different magazines: for 6, 7 and 8 rounds.

PPQ Q4 Steel Frame

High-class performance.

The Duty Optimized Beavertail provides the shooter increased grip height on the pistol. Optimised for duty retention holsters, providing clearance for retention hoods most used in Law Enforcement. This beavertail design also enhances comfortability during concealed carry. The Q4 Steel Frame is precision machined to create a superb balance in hand. The weight distribution of the steel frame drastically reduces recoil to improve shooter performance, ultimately contributing to overall efficiency. The Q4 Steel Frame features Performance Duty Texture, developed by Walther to provide a premium, yet functional grip.

Two variants are available. The duty version with PS sights and an Optic Ready model with all black serrated target sights. The scope of delivery includes a magazine loader, two 15-round magazines and the attractive Q5 case.

PPQ Q4 TAC

Design and features are equal to Q4 but is equipped with 4.6" (117 mm) threaded barrel 1/2"x28 for silencer.

PPQ Q4 TAC Combo

The Combo version is based on the PPQ M2 Q4 TAC with threaded barrel but is equipped with a SHIELD RMSc red dot sight. The sight sits directly on the slide without an adapter plate, giving it an extremely low profile. The Tungsten Gray frame enhances the overall appearance. The standard steel sight can also serve as a backup.

Other equipment: 3-dot steel sight; one 15-round magazine, two 17-round magazines. Q5 Match pistol case.

PPQ Q4

The Q4 shares the best in class PPQ Quick Defense trigger, which provides a smooth 25 N trigger pull and a short 2.5 mm reset. The optics ready slide comes with LPA fiber optic front sight and a rear LPA competition iron sight. The Q4 shares the same mounting plate system (not included) as the Q5 Match. Comes with one 15-round, and two 17-round magazines.

PPQ M2 4" / 5"

The release button can be changed over to the right side, the slide stop lever is already ambidextrous. Low profile 3-dot steel sights. MIL-STD-1913 Picatinny rail. Tenifer™ coated slide and barrel. Serrated trigger guard. Quick defense trigger. Ambidextrous magazine release button. Ergonomic WALTHER grip. Ambidextrous slide stop. Front and rear slide serrations. Interchangeable backstrap.

PPQ Q5 Match Steel Frame

Build around our award winning Q-platform, the Q5 Match Steel Frame with a solid milled steel frame features an LPA red fiber optic sight, LPA adjustable rear sight and an optics ready slide that comes with an optics ready mounting plate in addition to the LPA competition sights. All Walther blue quick defense trigger, and trigger bar with blue AFC coating. It comes with three 15-round magazines.

PPQ Q5 Match SF Black Ribbon

Same design as the Q5 Match Steel Frame Champion, but completely in black and with aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Three 18-round magazines.

PPQ Q5 Match SF Expert

The Q5 Match Steel Frame Expert draws its extra edge from its enhanced trigger. Optimally adjusted sear engagement, 20 N pull, adjustable take-up and trigger stop. Aluminium trigger shoe in size M-Flat, another trigger shoe in M-Curved and three 17-round magazines are included.

PPQ Q5 Match SF Black Diamond

Same design as the Q5 Match Steel Frame Champion, but in black and with aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Two 17-round magazines.

PPQ Q5 Match SF Champion

Same design as the Q5 Match Steel Frame, but with adjustable sear engagement for "crisp" trigger break. Walther low-profile mag well. Three 17-round magazines with aluminium mag extension.

PPQ Q5 Match SF Black Tie

Same design as the Q5 Match Steel Frame Champion, but with satin finish and aluminium grip panels. Further features: Optimised sear engagement. Dynamic Performance Trigger. Two 17-round magazines.

CZ Service Pistols

CZ P-10 C

A "striker fired" service pistol, excelling in reliability, durability and refined shooting, greatly supported by the unique checkering and superb DiFEND grip. Capacity increasable from 15 to 17 shots. 3 interchangeable backstraps. Iron sights.

24035 Cal. 9mm Luger € 686,-

CZ P-10 F

With an impressive magazine capacity of 19 rounds in 9x19 calibre. Weighs just 0.8kg when empty!

Highly durable polymer frame, "striker fired" trigger (SFDA), metal sights with 3 luminescent dots. Safety: Striker block (drop safety), trigger bar safety, trigger safety (drop safety).

24034 Cal. 9mm Luger 19 rounds € 686,-

24033 Cal. .45 Auto 13 rounds € 686,-

CZ P-09

A traditional, large-capacity SA/DA service pistol concept with an external hammer and modern frame made of high-strength, fiberglass-reinforced polymer. The advantages of this model include high accuracy and extreme reliability, even in the most adverse weather conditions. Magazine capacity of 19 rounds.

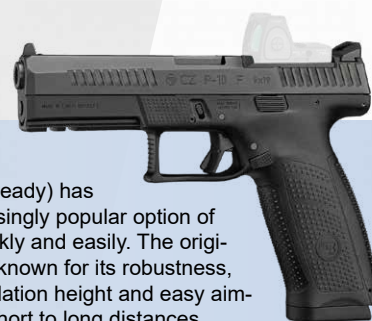

24040 Cal. 9mm Luger € 686,-

CZ P-10 C OR

with a milled slide cut into which a prefabricated mounting plate (see page 77) can be screwed in order to mount a red dot device. The slide cut can be covered with a supplied blanking plate.

24036 Cal. 9mm Luger € 755,-

CZ P-10 F OR

The **CZ P-10 F OR** (Optics-Ready) has been designed for the increasingly popular option of mounting a red dot sight quickly and easily. The original CZ mounting interface is known for its robustness, strength, durability, low installation height and easy aiming with the red dot sight at short to long distances.

24034.500 Cal. 9mm Luger € 755,-

Micro Pistol

CZ P-10 M

Micro pistol - ideal back-up or defensive arm for everyday carry. 3 1/3" barrel (85.3 mm). Highly resistant finish, resistant polymer frame, double-sided slide stop, rotatable magazine catch. Stiff metal sight with three luminescent dots. SFDA trigger, trigger stop. Interchangeable rear straps, mounted slide serrations in front and rear. Capacity: 7 rounds.

24037 Cal. 9mm Luger € 620,-

Compact Pistol

CZ P-07

Polymer compact pistol, designed primarily as a service weapon and for concealed carry. Innovative features. Durable surface finish. Well-proven Omega trigger mechanism.

CZ Full Size Pistols

CZ SHADOW 2

Represents the next generation of today's legendary CZ 75 SP-01 Shadow. It was developed in collaboration with the elite CZUB IPSC shooters to significantly contribute to speed and accuracy during competitions. The modernisation of all the principal parts of the weapon, i.e. slide and the frame, together with the extended barrel, enables repeating single shots more rapidly and more dynamically. More comfortable higher grip, new checkering

24050.000 Black Poly Cal. 9mm Luger **€ 1.660,-**

TS 2 Family

A new sport pistol series optimised for competing in the IPSC Standard Division.

- Single-action (SA) only trigger mechanism with short travel and quick reset
- Increased accuracy and service life due to the use of high quality materials and utilization of the latest technologies
- Improved frame and slide geometry for easier, faster and more reliable operation
- Attractive design of the slide, frame and sport hammer
- Improved ergonomics that contribute to comfortable handling during firing
- Aggressive checkering optimised for a reliable grip in a wide range of conditions
- 1 mm red fibre optic front sight for quick and intuitive aiming
- Durable finish
- Long service life and high reliability with various types of ammunition
- Machined magwell and flat, anodized duralumin base
- A wide range of components and accessories available for extensive user customisation

Test 2/2021

A lot of handgun for little money.

Test 2/2021

Smooth shooting characteristics, appealing precision.

CZ TS 2 SILVER

The TS 2 base model is suitable for beginners and advanced competitors alike. Features: Flat, silver anodized duralumin grips. Fixed metal sights. Extended manual safety on left side (flat on right side). Included in the package is a pin for advanced IPSC Standard Division shooters to exchange the slide stop.

24077	Cal. 9mm Luger	20-shot magazine	€ 1.984,-
24077.500	Cal. .40 S&W	17-shot magazine	€ 1.984,-

CZ TS 2 RACING GREEN

A more advanced design of the sports special for the IPSC Standard Division, as well as for hobby target shooting.

Features: Flat, green anodized duralumin grips and magazines with green anodized bases. Height adjustable metal rear sight. Thumb rest. Flat slide stop. Adjustable, green anodized magazine release. Extended manual safety on left side (flat on right side). Custom springs included. Magazine capacity: 20 shots.

24078 Cal. 9mm Luger € 2.223,-

CZ TS 2 DEEP BRONZE

A masterpiece of the sports special for competing in the IPSC Standard Division.

Features: Frame with Bronze Cerakote finish. Hand-fitted, custom components inspired by top sport shooters, including matching slide and frame. Polished barrel. Height adjustable metal rear sight. Thumb rest. Supplied with pin instead of slide stop. Adjustable, black anodized magazine release. Extended manual safety on left side (flat on right side). Flat, black anodized duralumin grips and black anodized magazine base. Custom springs included. Magazine capacity: 20 shots.

RUGER®

SP101® (small frame) / GP100® (medium frame)

The "SP101" and "GP100" revolvers are small and medium frame guns that boast the strength to handle powerful .357 Mag loads. The "SP101" series with a compact and lightweight small frame are ideal guns for hunting and self-protection. The "GP100" series comes with a medium frame and is used in shooting competitions worldwide. Solid steel frame with no side plates combined with the triple loading system boast all the reliability, durability and dependability you expect of a Ruger revolver.

LCR® / KLCR-357

This is a compact .38 Special revolver built by Ruger and announced in January 2009. The LCR acronym stands for "Lightweight Compact Revolver". It incorporates several novel features such as a polymer grip and trigger housing, monolithic receiver and constant force trigger. At 13,5 ounces (338g), the LCR is nearly 50 % lighter than the stainless steel SP-101. The compact and lightweight LCR is now also available in .357Mag.

Magazine loaders

The UpLULA™ is a military-grade, pocket-size, universal pistol magazine loader and unloader designed to load and unload virtually nearly all 9mm Luger up to .45ACP single and double stack magazines of all manufacturers. It also loads most .380ACP single and double-stack mags, and 1911's mags.

The UpLULA™ loader self-adjusts to the magazine and loads it easily, painlessly, and reliably – without painful thumbs! During loading, the bottom of the magazine is best supported at the hip or on a table.

RÖHM manufactures a versatile product range of gas and blank guns with great care and decades of experience. The reliable and robust models are equipped with safety systems to protect the user. RG weapons have already been characterized several times in leading professional journals as being of high quality and reliable.

For this reason, RG blank guns have become a fixed part of classical New Year's Eve shooting. At sporting events, the weapons demonstrate their qualities as start pistols. Self-defense especially plays an important role in the purchase of a blank gun. RÖHM blank guns are the ideal alternative for many people who feel threatened in a wide variety of life situations, but who don't want to carry a firearm.

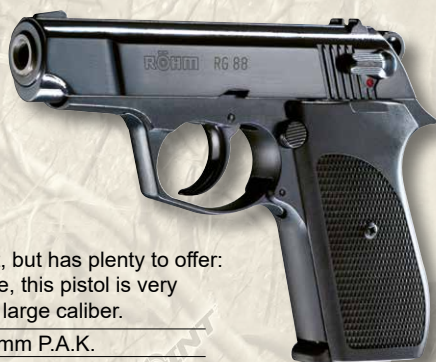

RÖHM RG 3

Reliable classic pistol with a striking design.

Caliber:	6 mm Flobert
Magazine:	6 shot
Trigger:	double action only
Safety:	triple-function safety
Length/Weight:	105 mm / 335 g

28105.000 blued, synthetic grips **€ 99,95**
 spare magazine: 28110
 firework adaptor: 28105.006

RÖHM RG 88

It's small and compact, but has plenty to offer: In spite of its small size, this pistol is very effective thanks to the large caliber.

Caliber:	9 mm P.A.K.
Magazine:	7 shot
Trigger:	double action
Safety:	safety catch
Grips	synthetic
Length/Weight:	160 mm / 580 g

28068.000 blued **€ 179,90**
 spare magazine: 28070
 firework adaptor: 28068.006

RÖHM RG 300

Sophisticated design, reliable operation.

Caliber:	6 mm Flobert blank
Magazine:	10 shot

AKAH Leather Beltslide Holsters

These holsters of our own German saddlery production in Gummersbach are characterized by a great comfort. No hard plastic body or built-in plastic blocks. All holsters are made of **soft quality leather or genuine Cordura** which adjusts to the body and causes no pressure points.

3 Adapter plate for QUICKMAT

for a lower and more comfortable carrying of the holster - especially suitable for women. The holster Quickmat can be applied to the adapter plate using Velcro and additionally fixed by two Velcro straps through the belt loop of the holster.

CORDURA

German
patent number
G 29 516 972.9

SHOULDER HOLSTER SYSTEM

German patent number 9707093

- Mod. "Cordura" and "Quick Draw" provide excellent concealment and lightweight comfort.
- Both sides can be equipped with devices for cellphones, batons, cuffs etc.
- The gun is protected by a steel cover and additionally secured by an adjustable security strap.
- Outside and offside fastenings are elastic with Velcro straps.
- Our selling teams offer advice with alternatives.

1 CORDURA

Lightweight soft-holster, spider web harness with leather ammo carrier. The spider web harness is fully adjustable in height. Ambidextrous design can be used by both right and left handed shooters.

65842 from **€ 86,90**

2 QUICK DRAW

Made of finest sleek or velour leather. The holster is open at the bottom and has a detachable security strap. Adjustable harness for Pistol.

65905 from **€ 139,50**

ATTENTION: Based on this Combination Shoulder Holster, new concepts were developed, in which already produced belt holsters, magazine pouches or cuff cases can be integrated in addition to the plain shoulder holster. DGM registered.

COMBINATION

Shoulder Holster for digital radio

- Holster with additional security due to a webbing with snap button.
- Shoulder holster with modified drawing angle.
- Shoulder holster available in three different sizes.
- Size adjustment due to a plastic quick slide instead of Velcro.
- Belt fixation with special suspender clips and flexible straps.
- At the digital radio: Cable channel for wiring, microphone etc.

65848.001 Size 1 115-175 cm

65848.002 Size 2 175-190 cm

65848.003 Size 3 190-205 cm

from **€ 139,50**

BALLISTIC SHIELDS for police and security forces

BALLISTIC SHIELD for police, security & armed forces: long, transparent

German utility patent

Police-shield, patented, according to police standards October 2010 / revision February 2010 (Deutsche Hochschule der Polizei). The developed protective shield made of polycarbonate is characterized by a particularly high energy consumption (shock absorption) and also offers very good protection against pointed objects due to its shape.

Material thickness: 3 mm or 4 mm.

Effective protection area: 950 x 550 mm / 22" x 362".

Suitable for right- and left-handed users due to cross handle.

Different colour available on request.

29760

Price on request.

POLICE-SHIELD Model "Swiss"

Anti-riot shield for police forces. It can also be used to a certain extent to stop and push off disturbers.

Diameter: 710 mm +/- 10 mm

Material of the shield: polycarbonate

Material thickness: 4 mm polycarbonate,

Weight: 2,6 kg

Universal CORDURA DROP LEG HOLSTER

The universal drop leg holster is made of CORDURA and can be used for a variety of pistols (with or without laser light module LLMS) due to its adjustability of width and height.

The pistol can be secured in the holster by a hasp and an additional elastic band. Underneath the adjustable belt loop is a plastic buckle, enabling an

easy removing of the holster quiver. The height of the holster is adjustable.

Enabling secure fastening there are two adjustable thigh straps which can be opened easily due to a plastic buckle and a part made of elastic band, providing optimal wear comfort.

Foldable loop in 4 different length available

- Hinged bar can be screwed on the holster, providing an optimal wearing position.
- Available in four different lengths.
- Especially suitable for driving or sedentary activities.

Price on request.

Self-Defense Police – Security

Electrical Stun Gun with safety plug

Power 200 and Power Max

POWER Max - electrical stun gun 500,000 V is intended for professional use for security companies, for the police, but also for anyone who wants to effectively defend himself. Unlike the stun gun POWER 200, which is powered by only one 9V alkaline battery, the power supply for model POWER Max is made up of two batteries and therefore has a high power output. One of the most important advantages of the stun gun POWER Max is a hand strap with safety plug. This hand strap hangs off the wrist and makes the stun gun out of operation the moment the device is violently pulled out of hand. You are defended by a safety fuse against unintentional discharge.

Technical Data:

	Power 200	Power Max

1 TW1000 Alarm Whistle^a

A loud and shrill whistle frightens aggressors and calls for help with 110dB. The sound is created by compressed air. For approx. 50 applications. Easy to use.

15 ml 29137 € 10,40 (100 ml = € 69,-)

Warning!
Pressurised container. May burst if heated.

CS/CN/Pepper Spray

4 PEPPER-KO FOG Spray^{a, b}

Easy to handle. With practical belt clip. Spray distance approx. 4 m. With unique, patented panic cap. In case of emergency push button (through). Prevents accidental spraying.

40 ml 29118.040 € 7,99 (100 ml = € 19,98)
50 ml 29118.000 € 8,99 (100 ml = € 17,98)
100 ml 29118.100 € 19,99

Danger! Extremely flammable aerosol. Pressurised container. May burst if heated. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Use pepper spray safely. Before use always read the label and product information.

5 PEPPER KO JET Spray^{a, b}

Klever Pepper Spray with jet spray. You can use the jet spray on a distance up to approx. 4-6 m, whereas the fog spray affects only on shorter distances (up to 4 m).

15 ml^b 29117.015 € 6,49 (100 ml = € 43,27)
40 ml^{a, b} 29117.040 € 7,99 (100 ml = € 19,98)
50 ml^{a, b} 29117.050 € 8,99 (100 ml = € 17,98)
100 ml^{a, b} 29117.100 € 19,99

Attention! Flammable aerosol. Pressurised container. May burst if heated. Causes serious eye irritation. Causes skin irritation. Use pepper spray safely. Before use always read the label and product information.

With
panic cap

5

ATTENTION: In Germany PEPPER KO is only permitted to protect against animals, not against humans. Take into consideration the legal situation in your country.

CS/Pepper spray

2 Pepper Fog Lady^{a, b}

With clip. Contains pepper extract Oleoresin Capsicum (OC). Leads to immediate irritation of eyes and respiratory system and thereby incapacitating the attacker. The handy shape make it in any bag. The hand clip allows you to carry the can on your belt, thus keeping it readily available at all times.

20 ml 29123 € 10,30 (100 ml = € 51,50)

Danger! Extremely flammable aerosol. Pressurised container. May burst if heated. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. Use pepper spray safely. Before use always read the label and product information.

3 CS Anti-Attack 77000 Lady^{a, b}

With clip. CS gas for self defence. In case of danger direct toward the offender. Active agent: 80 mg Ortho-Chlorbenzylidenmalononitril.

15 ml 29124 € 7,90 (100 ml = € 52,-)

Danger! Extremely flammable aerosol. Pressurised container. May burst if heated. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. Use CS spray safely. Before use always read the label and product information.

2

3

6

6 DEFENOL-CS Spray^{a, c}

The strong chemical mace. Have your bodyguard in your pocket. With practical carrier clip attached to the protective cap. Small enough to fit into the palm of a hand but big enough to tackle hairy situations. Toxicologically harmless if applied according to instructions. Tested for use against humans.

40 ml 29121.000 € 6,99 (100 ml = € 17,48)
50 ml 29122.000 € 7,99 (100 ml = € 15,98)

Danger! Extremely flammable aerosol. Pressurised container. May burst if heated. Causes serious eye irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

SAFE ORIGINAL

TERMO SAFE

Composition: 58% modacrylic, 24% viscose, 16% cotton, 2% anti-static
Temperature: -15°C - 10°C
Weight: 240 g/m²

Washing instruction: machine wash 60°C

Use:

TERMO SAFE ORIGINAL is a flame-resistant grade, suitable for use when activity levels vary between high and low. Perfect Comfort with flame-resistance. SAFE ORIGINAL meets the requirements of EN 531 A, B1 and C1, EN 1149-3, EN 471, EN 1611, EN 61482-1-2..

ORIGINAL **termo**®

SAFE LIGHT

Composition: 49% modacrylic, 29% viscose FR, 15% cotton, 5% polyamide, 2% anti-static.
Temperature: 0°C - 35°C
Weight: 150 g/m²

Washing instruction: machine wash 60°C

Use:

Termo Safe Light are the perfect undergarments for those requiring flame-resistance when working in extremely hot environments. Termo Safe Light keeps you both cool and warm, depending on the physical activity level. Perfect Comfort with flame-resistance. Safe Light meets the requirements of EN 14116-3/5.

ORIGINAL **termo**®

ORIGINAL HEAVY

Polycolon
schoeller
 the spinning group

Composition: 70% polypropylene, 24% wool, 6% polyamide.
Temperature: -40°C - 5°C
Weight: 120 g/m², 270 g/m²
Washing instruction: machine wash 60°C

Use:

TERMO ORIGINAL is best suited for those who spend long periods outdoors, where physical activity is interspersed with inactivity at temperatures between -40° and -5°. The unique channel terry cloth material quickly wicks moisture away from the body and the longitudinal channels allow air to circulate to keep you warm. Special permanent odour control to keep you fresh and warm.

3M™ PELTOR™ EEP-100 EU

The EEP-100 Electronic Earplug helps protect your hearing, and can help improve situational awareness and communications in challenging environments. The ear-pieces are rechargeable via a micro-USB jack on the charging case. The small and lightweight design helps improve the overall comfort and user experience. Intuitive one-button operation.

Rechargeable. Weight of 1 earplug: 4g.

37070.701 EEP-100 EU OR (orange) € 379,-

Content: Box with charger, 1 set of earplugs (orange), USB charging cable.

Additionally included in delivery: windscreens (against background noise when raining), TEP cord (protection against loss) and 5 different eartips.

37070.700 EEP-100 EU (green) € 369,-

Content: Box with charger, 1 set of earplugs (green), USB charging cable, assortment of 4 sets of ear-tips

3M™ PELTOR™ LEP-200 EU OR

Integrated with state-of-the-art level-dependent technology, the LEP-200 helps provide hearing protection in noise and situational awareness in quiet environments. The acoustic characteristics have been **optimised for hunting** (less sensitive to noise, e.g. rain or wind). 4 levels of amplification adjustment. Earplugs and box are optimally protected against moisture. The ear pieces also include a small antenna to allow audio signals from radio units to be received **wireless**. **Rechargeable:** Charging contacts recharge the unit while in the case.

Weight of 1 earplug: 4g.

Content: Box containing charger, 1 set of earplugs, assortment of 5 sets of eartips, lanyard, windscreens, 3x AA batteries

ISOtunes Sport Defy Slim Basic

New

Hearing protection in an extra slim design

The ISOtunes Sport hearing protection Defy Slim Basic is an active hearing protection with a headband. Thanks to the practical, slim shell design, it is particularly suitable for hunters and shooters. Harmful impulse noise from the shot is immediately dampened, while weak ambient noise is amplified. This allows communication with hunting companions without having to remove hearing protection, while allowing game to be seen over a long distance. You can connect an external device such as a smartphone via the auxiliary input. On the outside of the capsule there is a control element for controlling music and volume.

- tactical sound control technologie
- SafeMax technologie limits the volume to 85 db
- lightweight ultra slim design (310g)
- IPX4 durability
- Noise reduction rating (SNR): 27 db

Included: 2 AAA batteries, Aux cable

ISOtunes Sport Defy Slim

New

Hearing protection in an extra slim design with bluetooth

The ISOtunes Sport Defy Slim hearing protection is particularly suitable for hunters and shooters thanks to the slim shell design. This active hearing protection attenuates harmful impulse noise when shooting, while relevant, weak ambient noise is amplified. Thanks to Bluetooth 4.2 technology, you can pair your smartphone. This allows incoming calls to be answered and music to be listened to in the best audio quality. The controls on the outside of the capsule allow you to adjust the volume, select music tracks and make phone calls. The noise-isolating microphone ensures clear communication, even in noisy environments. External devices can be connected via the auxiliary input.

- tactical sound control technologie
- SafeMax technologie limits the volume to 85db
- lightweight ultra slim design (310g)
- IPX4 durability
- Noise reduction rating (SNR): 27 db
- Bluetooth 4.2
- noise isolating microphone

Included: 2 AAA batteries, Aux cable

ISOtunes Sport Defy

DEFY is a tactical earmuff that defies every assumption shooters have about painful and restrictive hearing protection. This modern take on a traditional style earmuff features next-generation technology, providing environmental awareness and gunshot noise attenuation.

- Tactical Sound Control™ technology enhances your hearing up to 8x while protecting you from high-impact noises in under 2 milliseconds
- SafeMax™ technology limits volume output to 85 dB
- Lightweight design at just 440 g (15.5 ounces)
- Bluetooth 4.2 connects, and dual-connects, devices up to 10 m (30 feet)
- Noise-isolating microphone
- vented headband and memory foam ear cushions
- Rechargeable battery provides up to 11 hrs of connection to any device. Charging time: 2-3h. AAA battery compatible for up to 22 hrs of connection (not included).
- Automatic power-off after 4 hours for battery conservation
- IPX4 durability
- Noise reduction rating (SNR): 30 dB

Included: Li-ion battery, Micro-USB charging cable, quick start guide and product manual.

ISOtunes CALIBER

New

Caliber is Bluetooth hearing protection for shooters. This electronic hearing protection is completely dust, sweat and waterproof (IP67). Thanks to its completely cordless design, you can move freely. Tactical Sound Control amplifies natural sounds and dampens gun shots. This technology improves your hearing by up to 8 times while protecting you from extreme impulse noise in less than 2 milliseconds.

- Noise reduction rating (SNR): 32 db
- SafeMax technologie limits the volume to 85 db
- Bluetooth 5.2 for dual connection over distances of up to 9 meters
- Background noise cancelling microphone for clear communication in noisy environments
- Battery life of up to 13 hours, 2 additional full charges in the rechargeable case
- Automatic shutdown after 2 hours
- Weight: 25 g

Included: 3 pairs of Short TRILOGY™ Foam eartips, 3 pairs of TRILOGY™ Foam eartips in 3 sizes (S/M/L), 1 pair of silicone triple flange eartips, Charging case with lanyard, USB-C charging cable

AKAH

LOGIC BELT

LOGIC BELT Shooting Sling – White tension-proof material. Nickel plated buckles for rough-adjustment. AKAH's proven fine adjustment for precise fitting.

Slip- and stretch-free fastening. The four-part strap of the Logic Belt guarantees absolute stability. It allows millimetric adjustment of the sling length. With special, patent coupling. This closure minimises slippage. The purpose-built sling keeper for the Logic Belt ensures a firm, adjustable fixture to the shooting jacket.

Pistol King

Loaded for success. Developed to be an extremely accurate competition cartridge. This pistol round is consistent, provides excellent accuracy and gives smooth, reliable and dependable functioning.

Polar Biathlon

Ideal target performance in all conditions. Lapua Polar Biathlon has won the vast majority of biathlon medals worldwide. This cartridge is specifically designed for use in the frigid conditions common to most biathlon competitions. It offers ideal performance under all conditions, with consistent accuracy and reliable ignition.

Midas+

The new generation Midas+ rimfire ammunition. Lapua's Midas+ rimfire ammunition is the improved generation of the successful Midas. It brought a lot of excellent results, which have been used as the basis for the new generation cartridges. Always accurate, this is the .22 caliber ammunition of choice for many world class rimfire shooters.

Center-X

Versatility and superb performance. The high-quality Center-X ammo is widely used for both match and practice shooting. The versatile .22 lr cartridge is known for its superb performance in all kinds of smallbore competitions.

Pistol OSP

Worldwide pistol ammo favourite. A specialized ammo for OSP (Olympic Sport Pistol) shooting disciplines. Constant, accurate and precise. It is a favourite among rapid fire pistol shooters worldwide.

❶ Patented flat nose profile proving improved projectile stability.

❷ Beeswax based lubricant for easy chambering.

❸ Cut case mouth providing controlled length and optimum projectile seating.

❹ ELEY prime composition for consistent ignition.

The most consistently accurate .22 cartridge on the market. Olympic standard, medal winning, premium quality cartridges used by experienced club shooters and internationals.

A very affordable, good quality general purpose cartridge. A good value entry level round.

Accurate and reliable mid-range cartridge - a popular choice for the club shooter and has been a consistent winner in competitions.

The Standard allows shooters of all ages and levels to experience and trust ELEY's unrivalled accuracy at an affordable price. With the re-introduction of Standard, ELEY added a paraffin-wax lube to the round-nose bullet for consistent and reliable function through all rimfire firearms, including semi-automatic.

Impressive results from a competition cartridge featuring many of the attributes of Tenex. Top choice among the largest body of competitive shooters, representing amazing value for money and providing excellent accuracy.

The highest quality cartridge for semi automatic rifles and pistols. Features a round nose bullet profile and a specially developed lubricant to prevent misfeeds.

The ELEY German Match was specially designed for the German shooting sports.

Super accurate and one of the quietest subsonic rounds on the market. Subsonic Hollow is a lower velocity hunting cartridge with target shooting accuracy.

Super accurate and one of the quietest subsonic rounds on the market. Subsonic Hollow is a lower velocity hunting cartridge with target shooting accuracy.

A high-velocity, semi-automatic .22LR round designed for power that delivers both strong kickback and accuracy.

A subsonic semi-automatic .22LR round designed to deliver extreme accuracy and improved knock-down performance.

COMPETITION AIR PELLETS

ELEY tenex air

premium air pellets: world-class accuracy, protective packaging and precise weight control set new standards for .177 calibre air pellets. They are manufactured in the UK using the strictest manufacturing and analytical processes to provide world-class accuracy. Available to batch test at ELEY test ranges for the ultimate performance. Available in 4.49 mm, 4.50 mm and 4.51 mm diameters to ensure a match with all air rifles and air pistols.

X2/X2 STEEL

High-performing STEEL at competitive prices!

With its steel load, the **X2 Steel** offers the best compromise between performance and competitive price while conforming to the strictest environmental standards. Classified as standard pressure, it may be shot in all shotguns proofed at 930 BAR.

AA TRAACKER

The AA TraAcker cartridge enables the shooter to visualise the shot trajectory to the target. The design of the core traps the shot and captures the wad, which remains in the centre of the shot's trajectory right up to the target.

Unique helix shaped petals stabilize the wad by rotating it and keeping it in the centre of the shot pattern.

The shot of the AA TraAcker are dark colored and thus facilitate shooting in greater brightness.

SUPER SPEED® Gen. 2

Greater speed and controlled pressure

The secret of the G2 powder lies in its controlled vivacity, translated to a reduced pressure during its combustion. Our engineers had thus been able to increase the quantity of the powder in each shell and thereby increase its speed by almost 20m/s, all while keeping the pressure under the limit of 740 BAR.

Regularity of patterns

The Super Speed® generation 2 is loaded with the type-"Z" wad with 4 compression legs. This specifically designed plastic wad enables an excellent ratio in its regularity of the patterns, even with the significant improvement in speed, and even at great distances. By welding the centre of the starred crimp, the shell is thus completely sealed and perfectly protected while providing a greater regularity of pressures.

ZZ CANARD

WINCHESTER's FASTEST steel shotshell

The 33g of steel shot in the new ZZ Canard shotshell flies at 440 m/s, making it the fastest in the WINCHESTER range of steel shotshells. The high velocity is mitigated by the relatively low load weight to maintain a comfortable shooting experience. The steel pellets are coated in a fine layer of tin for effective corrosion resistance.

EXTRA DUO FAISAN/BECASSE

TWO SHOT SIZES for perfect patterning

The new EXTRA DUO range has been developed to deliver double the performance: the shell is loaded with two separate layers of different-diameter shot for a more effective and lethal shot pattern. The larger, faster pellets hit the target first, transferring maximum energy. They are immediately followed by the smaller pellets, which optimise the shot pattern with the maximum number of impacts.

EXTRA DUO FAISAN

The (felt) grease wad delivers optimum shot distribution even at long range.

EXTRA DUO BECASSE

The disperser wad in this shell makes it particularly effective at short range in dense vegetation.

Warning. Fire or projection hazard. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

ELEY GAME LOAD with bismuth shot

BISMUTH SHOT

- the non toxic alternative to lead shot.
To protect the environment.

VIP Bismuth is the market leading alternative to lead shot when reducing the impact on the environment is required. The unique formulation of the Bismuth alloy has many properties similar to lead in density and hardness. The alloy mix also ensures there is a certain malleability to the alloy, which in turn transfers energy into the target to deliver good knockdown power.

Bismuth has no toxic properties and is very safe to handle.

ORIGINAL
BRENNEKE
THE ART OF AMMUNITION

Why Brenneke?

-  Hunt with the confidence of maximum power and excellent accuracy
-  Effective, sure kills with minimal damage to meat
-  Reliable performance in every hunting situation
-  Easy transition between lead and lead-free bullets
-  125 years of experience and innovation by German craftsmen

TUG® nature+

- Solid copper construction:** Delivers supreme energy transfer and maximizes retained weight.
- Large diameter polymer tip:** Accelerates expansion resulting in rapid impact trauma.
- Ballistic profile & boattail:** Streamlined profile and boattail for flat trajectory.
- Huge hollow noise cavity:** Creates consistent and wide expansion for lethal terminal performance on all games and at all distances.

The combination of the Nosler Ballistic Tip bullet with the exclusive Winchester® Lubalox® coating allows for **extreme accuracy for hunting and long-range shooting.**

The high-speed Winchester® Ballistic Silvertip® bullet provides the **flattest of trajectories** and is available for:

- varmints, with a single tapered jacket and pure lead core for instant fragmentation
- large game, with a double tapered jacket and a core of harder lead for controlled expansion of the bullet.

POWER-POINT®

- Wide diameter polymer tip:** A faster expanding bullet for instant traumatic effect on impact.
- Ballistic profile:** The combined aerodynamic profile and polymer tip provide better long-range ballistic performance.
- Profiled jacket:** Tapered profile for rapid expansion.
- Lead alloy core:** Optimised for greater energy transfer and stopping power.

- Protected hollow point**
- Lead core** bonded to copper jacket
- Contoured jacket**
- Optimal expansion** and very high weight retention
- The bullet's initial diameter** is more than doubled to give lightning knockdown power

- Wide diameter polymer tip:** A faster expanding bullet for instant traumatic effect on impact.
- Ballistic profile:** The combined aerodynamic profile and polymer tip provide better long-range ballistic performance.
- Profiled jacket:** Tapered profile for rapid expansion.
- Lead alloy core:** Optimised for greater energy transfer and stopping power.

Warning. Fire or projection hazard. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

LAPUA HUNTING CARTRIDGES

Naturalis bullets have always been famous for their great penetration, controlled expansion, powerful shock effect - lead-free.

Lapua is pleased to introduce the third generation of Naturalis in calibers .30, 8 mm and 9,3 mm. Naturalis bullets offer remarkably tough construction and consistently deliver unusually high retained weights. But we've managed to improve them. The latest incarnation of the Naturalis bullets are designed to work

over an even larger velocity range. This provides not only more possibilities to use the Naturalis bullets over a wider range of cartridges, but also the types of game and shooting distances involved. The new Naturalis bullets will be the first choice for those hunters who prefer the clean kills and minimal meat loss.

RESPECTING
THE GAME

NATURALIS

A great performing 99% copper bullet retains up to 100% of its weight. The valve at the tip of bullet opens immediately on impact, leading the bullet to expand symmetrically and without shattering. The Naturalis is extremely effective by giving a clean shot and minimizes meat loss.

Top features:

- Controlled, optimised expansion, ideal penetration, powerful shock effect - not depending on the distance.
- Solid and unbreakable construction, weight retention up to 100%.
- Unique Lapua high tech.
- A clean shot - minimized meat loss - no lead residue in the meat!

MEGA

Traditional hunting performance

The Lapua Mega is for hunting big game. The Mega is a soft point bullet with a protective copper jacket – traditional hunting performance. This ensures that the bullet's lead alloy core remains intact when shooting through brush or branch.

Mechanical bonding means that core is firmly locked inside the jacket and will not separate even on hardest impact. The Mega bullet has very high, up to 97% retaining weight after impact on game. It typically more than doubles on impact, causing an immediate shock effect.

LAPUA SPORT SHOOTING CARTRIDGES

SCENAR

The first choice for serious target competition.

Lapua Scenar Open-Tip Match bullets have given superb results at long ranges and bench rest shooting. The Scenar bullets have the IBS World Record in 600 yard Heavy Gun 5-shot group (0.404") and also hold the official world ISSF record of 600 out of 600 possible, an unbeatable score.

SCENAR^L

The ultimate match bullet!

Drawn to even tighter standards of jacket wall concentricity, weight variation and dimensional uniformity, this new line takes our well known reputation for quality to the highest level we've ever produced. The new Scenar^L, the ultimate match bullet!

FMJ

Reliability and accuracy

Whether you require bullets for training, competitions or serious hunting situations you can really trust the performance of Lapua's FMJ bullet family. Ten rounds loaded with Lapua's .30 S374 8.0/123gr FMJ bullet from 100m can easily achieve groupings less than 30 mm. Reliability means that every shot you fire will hit the target.

that has many applications from sport shooting to battlefield. Streamlined ballistic shape combined with patented base design.

LOCK BASE

Unbeatable accuracy over extra-long distances

A distinctive Full Metal Jacket Boat Tail bullet

Manufactured to the strictest tolerances for concentricity, uniformity of shape and weight, it has shot its way to the record books since the 1930's all the way to the 21st century.

D46

Often copied, never equaled

The legendary D46 is one by which all others of its type are measured.

LAPUA BULLETS

- unbeatable performance

Lapua bullets are known for their extreme accuracy and superior ballistic designs. From the world famous Scenar and Scenar-L, to the variations of FMJ, all of which are optimised for their intended use, and finishing with the NATURALIS and MEGA for hunters. From Olympic Gold to World Championships or local matches, to the mountains and woods, whatever your shooting pursuit, there is a LAPUA bullet perfectly tailored to your pursuit.

MEGA

Traditional hunting performance for big game hunters.

Lapua's Mega bullet is a soft point jacketed hunting bullet. The Mega is a traditional lead core bullet for all kinds of European and North American game, particularly large game hunting. The mechanical bonding locks the lead alloy in place, keeping the structure together at point of impact.

FMJ / SPITZER

A competition bullet also for small game.

Whether you require bullets for training, competitions or serious hunting situations you can really trust the performance of Lapua's FMJ bullet family. Ten rounds loaded with Lapua's .30 S374 8.0 g / 123 gr FMJ bullet from 100 m can easily achieve groupings less than 30 mm. Reliability means that every shot you fire will hit the target.

LAPUA

BULLETS for rifle cartridges

LEAD FREE BULLET

NATURALIS

Precise, versatile, and lead-free: Respecting the game.

The Lapua NATURALIS

lead-free projectile is now in its third generation. Its original concept and design was introduced in 2002. It boasts devastating terminal performance and virtually 100 % weight retention for deep penetration resulting in a clean, lead-free harvest of even large big game such as elk or moose.

The new NATURALIS design uses state of the art technology to produce consistent, controlled expansion. The polymer valve design uses hydraulic force to create the optimum mushrooming effect at the widest velocity range on the market.

The bullet is designed and manufactured by using pure copper. The material, design and controlled expansion ensure a solid and nearly unbreakable construction. The weight retention of the bullet, even after impacting on heavy bone, is frequently 100% of its original weight.

SCENAR^L

The ultimate long range match bullet.

The Scenar-L has the refined qualities of the original Scenar bullet with higher standards of jacket wall concentricity, weight variation and dimensional uniformity. Scenar-L has truly earned its reputation as the go-to bullet for the best possible results in long range rifle shooting. For top shooters in the world in bench rest, long range or F-class, Scenar-L is the ultimate match bullet, proven by the countless long range records set using it.

LOCK BASE

Unbeatable accuracy over extra-long distances.

Lapua's Lock Base bullet is a Lapua innovation which combines a full metal jacket and boat tail with a patented base design. This bullet has proven its worth in sport shooting arenas as well as military and law enforcement applications over time.

D46

Often copied, never equaled.

The legendary D46 is one by which all others of its type are measured. Manufactured to the strictest tolerances for concentricity, uniformity of shape and weight, it has shot its way to the record books since the 1930's all the way to the 21st century.

D166

The original FMJBT bullet for 7.62 x 53R/54 cartridges.

The construction of the D166 has remained unchanged since it was developed in the 1930s. The D166 is extremely accurate and features Lapua's familiar incrementally tapered tail.

C356

The Lapua Lead Wadcutter is a widely used bullet for competition shooting in centerfire pistol disciplines.

C427

The lighter 5.35g/83gr Lapua Lead Wadcutter bullet is ideal for military rapid fire and for shooters who require a lower recoil.

LAPUA brass - consistent quality

LAPUA manufactures its world leading cases from the highest-quality raw materials. As a result our cases maintain exact tolerances over multiple reloading cycles.

The bases of our cases are hard and resilient and therefore maintain their shape. Also, the necks of our cases are absolutely symmetric and annealed. Their bluish colour is not an indication of poor finishing, but a LAPUA trademark.

AKAH Hunting Binocular 8x56 GA

The AKAH hunting binocular will match all needs of the hunters. A light strong binocular in a compact and elegant design. Modern fully coated lenses and BAK-4 prisms provide in connection with the large objective diameter a bright, detailed, high-contrast image reproduction. The green rubber armour absorbs moisture and is comfortable and safe to hold. Multi-stage twist-up eyecups and central focus of the grip with integrated diopter compensation ensure simple operation even with gloves. Included is a high quality hard case with a neoprene strap, eyepiece and objective lens protection caps

50075 8x56 GA € 229,-

AKAH Binoculars 8x26 OB / 8x42 OB / 10x42 OB

AKAH quality optics for stalking, bird-watching or observation of nature.

New outlook with open-bridge design for easy one-hand operation. Fully multi-coated optics for higher light transmission. BAK-4 roof type prism for clear, bright resolution images. Waterproof, for proof with nitrogen filled thermoplastic-body with green rubber armouring. Twist-up eyecups. Comes with soft case, carrying strap, eye-piece and objective covers.

Leica Geovid R.

Ein Klassiker erfindet sich neu.

30 YEARS
LEICA PIONEER OF
RANGEFINDING

Geovid R – Fernglas und Entfernungsmesser in einem: Ein Klassiker erfindet sich neu!

Mit der neuen Generation der Geovid R setzt Leica wieder einmal neue Maßstäbe. Komplett überarbeitet und technisch auf den neuesten Stand gebracht, überzeugen die neuen Leica Geovid R Modelle in allen Details:

- Beste optische Leistung in ihrer Klasse
 - Absolut präzise Laserentfernungsmessung
 - Verbesserte Messreichweite (bis zu 1.800 m)
 - Neues, modernes und ergonomisches Design
 - Besonders leichte, kompakte Bauweise (8x56)
- Wild lässt sich jederzeit schnell und sicher ansprechen und die Entfernung wird präzise angezeigt. Jeder, der sich nicht zwischen leistungsstarker Optik in einem Fernglas und einem präzisen Entfernungsmesser entscheiden möchte, findet hier die bestmögliche Kombination in einem Produkt zu einem attraktiven Preis.

Leica Geovid HD-R 2700. Mit linearer, ebenengleicher Entfernung (EHR).

Die Geovid HD-R 2700 Modelle kombinieren ergonomisches Design mit gestochen scharfer, kontrastreicher Optik und zuverlässiger Entfernungsmessung. Zur Ausgabe der ebenengleichen Entfernung (EHR) ist keine vorherige Programmierung notwendig. In bergigem Gelände erhalten Sie durch die Ausgabe der winkelkompensierten Schussentfernung mehr Sicherheit und Flexibilität. Der Leica eigene Algorithmus berücksichtigt neben linearer Distanz und Winkel immer auch eine realistische Geschossflugbahn und ist deshalb genauer als die Rifleman's Rule (Cosinus-Funktion). Das Ergebnis ist eine höchstpräzise Berechnung der echten, ballistischen Distanz (EHR) bis 1.100 m/1.200 yds.

5 Geovid 8x42 HD-R 2700

6 Geovid 10x42 HD-R 2700

7 Geovid 8x56 HD-R 2700

Leica Geovid 3200.COM Mit Ballistiksystem ABC®.

Bahnbrechende Benutzerfreundlichkeit dank Leica Hunting App.

Mit der Leica Hunting App individuelles Ballistikprofil erstellen, übertragen und immer wieder aufrufen.

Leica Ballistiksystem ABC®:

1. Absehen-Klickverstellung
2. Haltepunkt Korrektur in cm oder Inch
3. Echte ballistische Distanz (EHR)

Wiederholgenaue und absolut präzise Entfernungsmessung auch bei widrigen Bedingungen bis zu 3.200 yds (2.900 m).

Leica Geovid Pro 32.

Wahre Größe kommt von innen.

Das Leica Geovid Pro 32 ist ein echter Meilenstein.

Es ist das kompakteste und leistungsstärkste Entfernungsmesser-Fernglas in der Premium-Klasse, ausgestattet mit der weltweit führenden Applied Ballistics® Software und einem präzisen Laser der Klasse 1. Nie zuvor waren so viel optische Leistung und praxiserprobte Ballistik in so wenig Fernglas verpackt. Das präferierte Ballistikprofil wird in der Leica Ballistics App voreingestellt und ganz einfach über die Bluetooth®-Schnittstelle auf das Geovid Pro 32 übertragen. Entwickelt für alle jagdlichen Situationen und Entfernungen, ist das Geovid Pro 32 die erste Wahl für jeden aktiven Jäger, der eine kompakte Ausrüstung schätzt und sofort die verlässliche ballistische Lösung für alle Nah- und Weitschüsse braucht.

9 Geovid Pro 10x32

Leica Rangemaster. Maximale Präzision und Sicherheit.

Leica Rangemaster CRF 2800.COM

Die einzigartige Kombination aus Bluetooth®-Konnektivität, präziser Distanzmessung, ballistischer Funktionalität und Optik höchster Güte im kompakten Design bietet hohe Präzision und Sicherheit bei der Entfernungsmessung. Die Einstellung des individuellen Ballistikprofils über die Leica Hunting App ist einfach und komfortabel. Via Bluetooth® erhält der CRF 2800.COM die individuellen ballistischen Daten.

Leica Rangemaster CRF 2400-R.

Das perfekte Einsteigermodell. Flexibel, handlich und mit ballistischer Funktionalität. Der CRF 2400-R gibt Ihnen präzise die lineare und ebenengleiche Entfernung an.

Leica Ferngläser.

Universell, kontrastreich
und brillant.

1 Noctivid 10x42

2 Ultravid 8x50 HD-Plus **3** Ultravid 10x25 BR

Leica Noctivid.

Ein Jahrhundert gewachsenes Wissen wird Wirklichkeit.

Über ein Jahrhundert Erfahrung in der Entwicklung von fernoptischen Geräten, Mikroskopen und Kameras gipfeln heute in der innovativsten Familie unter den Leica Ferngläsern: den Noctivid. Die Meilensteine setzen die Mechanik und Optik der Leica Fernglasfamilie. Bei den optischen Werten vereint das Noctivid das Beste aus innovativen und bewährten Technologien. Die bereits in der Leica Ultravid HD-Plus Optik eingesetzten Schott HT™ (Hochtransmissions-) Gläser sorgen auch im Noctivid für verblüffend natürliche Farben und höchste Transmission. Komplexe, innovative Blendensysteme zur Streulichtunterdrückung ergeben detailreiche, brillante Bilder bis zum Rand mit gestochen scharfen Kontrasten. In jeder Lebenslage einsetzbar, setzen diese Ferngläser auch im Design Maßstäbe: Kompakt in den Abmessungen, stilvoll und elegant, trotzdem unglaublich robust und belastbar.

Leica Ultravid HD-Plus.

Universell einsetzbar, licht- und kontraststark.

Die Ferngläser der Ultravid HD-Plus Serie sind die perfekten Universalgläser, von der Treib- bis zur Ansitzjagd. So werden bei den HD-Plus Modellen besondere Schott-Gläser mit hervorragender Transmission (Schott HT™ Gläser) für die Prismen eingesetzt. Zudem wurde die optische Leistung durch neue, innovative Coating-Verfahren verbessert, was zu mehr Transmission im blau-violetten Spektralbereich führt und damit zu einer höheren Bildhelligkeit, verbesserter Farbübertragung und deutlich gesteigertem Dämmerungssehen.

Leica Ultravid Kompakte.

Sie sind heller, brillanter und robuster als andere Ferngläser dieser Objektivröße – und sie passen in jede Jackentasche. Die erste Wahl für alle Naturliebhaber, die in die professionelle Beobachtung einsteigen möchten. Auch in beledet schwarz und beledet silber erhältlich: Modelle und Preise auf Anfrage.

Leica Trinovid Klassik.

Die Rückkehr der Fernglas-Ikone.

Die Leica Trinovid-Ferngläser sind eine Hommage an die Fernglas-Ikone der 1960er Jahre. Formschön, schlank und elegant im klassischen Fernglas-Design mit schwarzer Belederung sind sie ein Statement und zeitloses Accessoire, um die besonderen Momente intensiv zu erleben. Die präzise, leistungsstarke Premium-Optik, die Anwendern einen beeindruckenden Überblick beschert, sorgt zusammen mit der intuitiven Bedienung dafür, dass auch kleinste Details entspannt beobachtet werden können. Neueste Glassorten und Vergütungen garantieren brillante, natürliche Farben und kontrastreiche, lichtstarke Bilder bis zum Rand. Geschützt durch ein ultraleichtes Aluminiumgehäuse und modernste Materialien, sind die Trinovid-Ferngläser robust, klimafest, spritzwasser- und regendicht. Auch unter intensiven Bedingungen sind sie jeder Herausforderung gewachsen und somit der perfekte Begleiter, egal ob auf Reisen oder Wandertouren.

995,- €

Leica Trinovid HD.

Robust und zuverlässig.

Die Trinovid HD Modelle bestechen durch ihre hohe optische Leistung und sind gleichzeitig extrem robust. Dank der bewährten Leica Optik bieten sie starke Kontraste, eine brillante Farb-

wiedergabe und eine sehr gute Lichttransmission. Die griffige Gummiarmierung macht sie unvergleichlich widerstandsfähig und bietet perfekten Halt bei allen Wetterbedingungen. Für schnelleren und besseren Überblick in jeder Jagdsituation.

Leica Trinovid Kompakte.

Die Trinovid BCA sind kleine, hochwertige Kompaktferngläser, die technisch gesehen selbst den Vergleich mit vielen größeren Ferngläsern nicht scheuen müssen. Für den Einsatz zum Beispiel auf langen Touren oder auf Reisen.

PASSION™ ED Line

New

GPO PASSION™ ED

The perfect entry into the world of high-quality observation optics

With the ED series, GPO offers an entry-level class in the field of observation optics, which is characterised by a particularly excellent price-performance ratio.

The design is based on the popular HD series. The focus lies on robustness and optical performance. The slim, ergonomic shape ensures a stable hand position, while the use of magnesium for the entire housing gives the binoculars their robustness.

Thanks to the ED lenses, multi-coating and adapted optics, the binoculars not only offer a large field of view with high edge sharpness, but also particularly good transmission values. Scope of delivery: High-quality hard case, high-end neoprene carrying strap, cleaning cloth, user manual, lens and eyepiece protection caps.

Magnesium case

Light & Compact

Large field of view

Tripod suitable

PASSION™ ED 8x32/10x32

Entry Level

The PASSION™ ED 8x/10x32 models are the most compact and lightweight models – without compromising on optical performance and durability.

PASSION™ ED 8x42/10x42

Allrounder

Ideal for demanding outdoor enthusiasts looking for great performance in a compact and lightweight format.

PASSION™ ED 8x56/10x56

Night-time specialist

Excellent performance in low light. The high light transmission and large exit pupil ensure relaxed observation during twilight.

GPO PASSION™ HD

**Premium class binoculars –
ideal, light companion for high quality observation**

PASSION™ HD represent the absolute premium class from GPO. HD optical design combined with state-of-the-art multi-layer coatings creates optical excellence in transmission, field of view, edge-to-edge sharpness, close focus and colour reproduction. Thanks to our hydrophobic coating PASSIONdrop™ all optics are dirt and water repellent. The innovative microbridge offers a high quality and very ergonomic design. Magnesium housing, coated magnesium bridge and the fully machined aluminium rotary eyecups provide maximum ruggedness with minimal weight.

The diopter adjustment was integrated in the central focusing wheel to provide comfortable ease of use. If you do not want to compromise on the quality of your binoculars and are looking for an extremely fair price-performance ratio, you will find it here.

Comes with: instruction manual, cleaning cloth, hard case, neoprene neck strap, hard case strap, objective covers, ocular covers.

PASSION™ HD 8x42/10x42

Universal Companion

The PASSION™ HD 8x/10x42 models are compact, lightweight and high-quality options for all your outdoor needs.

PASSION™ HD 8,5x50/10x50/12,5x50

Big Performance

The PASSION™ HD 8.5x/10x/12.5x50 models are characterized by large objective lenses to allow for higher light transmission for the most challenging light conditions.

SPECTRA™ Line

SPECTRA™ 5x 3-15x56i

New

SPECTRA™ 1x 7,5x50i

SPECTRA™ 1x

Compact and light with excellent price-performance ratio

The GPO SPECTRA™ 1x 7,5x50i is an extremely compact and lightweight rifle scope with high optical performance, excellent contrast and outstanding twilight performance. Exit pupil, field of view, eye relief and the illuminated G4i reticle make it the ideal raised hide riflescope for day and night. Due to the very fair price positioning, it is the ideal product for users who are looking for an excellent price-performance ratio.

SPECTRA™ 4x

Slim design, short length and low weight

Thanks to their 30 mm center tube diameter, the 4x zoom riflescopes impress with their slim design, short length and low weight. The outstanding optical quality is highlighted by wide fields of view and high light transmission values. Large lens diameters provide reserves of light until deep into the twilight. Unique in this class are the illuminated 4x models featuring iControl™ illumination with automatic shut-off.

SPECTRA™ 4x 4-16x50i

SPECTRA™ 4x 2,5-10x44i

SPECTRA™ 5x

Low-light specialist

Aiming for high low light performance, the SPECTRA™ 5x riflescope model offers accurate, reliable and high quality performance for various applications. 30 mm centre tube, GPObright™ lens coatings and iControl™ illumination technology are just some of the features you'll find in this model. Packed with performance so you can enjoy your passion.

All GPO scopes come with:

instruction manual, cleaning cloth,
bikini scope cover, battery CR2032

Additional with throw lever:

SPECTRA™ Pistol Dot

Designed for demanding handgun shooting needs

The new SPECTRA™ Pistol Dot is specifically designed to meet the demanding needs of handgun shooting, with a 3 MOA dot for fast, intuitive target acquisition and accurate, repeatable shooting. When developing the red dot sight, GPO implemented important functions such as an automatic switch-off, automatic brightness adjustment according to ambient light, highly efficient power management with a battery life of up to 25,000 hours and IPX 7 water resistance. Battery replacement is possible with visor mounted. The very compact and lightweight design makes the SPECTRA™ Pistol Dot the perfect choice for all handguns with a Leupold interface. Equipped with a height and side click adjustment and compatible with night vision technology.

- GPObright™ lens coatings
- IPX 7 sealing
- Leupold interface
- MOA click adjustment (height and side): ½ MOA = 1 click
- Red dot Ø: 3 MOA
- Illumination adjustment: automatic
- Battery life: up to 25,000 hours
- Battery change possible with mounted sight

SPECTRA™ Dot 1x20

Meets all your shooting needs

When developing the SPECTRA™ Dot, GPO implemented all relevant features such as day and night settings, highly efficient power management with a battery life of up to 50,000 hours, Weaver and Picatinny mounting and IPX 7 sealing. The compact and lightweight design makes it your perfect choice for all fast target acquisitions and fits most rifles. It is equipped with a tactile click adjustment for side and elevation adjustment. The brightness of the red dot also allows the GPO SPECTRA™ Dot to be used in bright light conditions.

- GPObright™ objective coating
- IPX 7 sealing
- Weaver- and Picatinny rail
- MOA travel value: ½ MOA = 1 click
- Red dot Ø: 3 MOA
- Illumination control: 6 day, 5 night settings
- Battery runtime: up to 50,000 hours
- Battery: CR 2032

GPOTAC™

Tactical riflescopes with high-demand features

This line of tactical riflescopes packs incredible high-demand features into every item. Massive mil-rad turrets, mil-spec horseshoe reticles, iControl™ illumination with auto-off functionality and stunning optical performance will shake shooters to their core.

Built with 30 mm and 34 mm main tubes, these riflescopes allow for an optimal range of adjustment. Feature for feature, spec for spec, you will find no better optic for your demanding needs.

SIGHT MARK®

New

SIGHTMARK® Element Mini Solar

Solar technology combined with high battery power (up to 200,000 hours). The innovative Eclipse Light Management System automatically adjusts the brightness of the reticle to the ambient light. Includes: flip-up lens caps, a low Picatinny mount for shotguns and certain rifles, a Co-Witness mount for AR weapons. Unlimited eye relief, 22mm lens, dot size 3 MOA, dimensions (W x L x H): 41 x 75 x 69mm, weight: 150g.

54274 € 359,-

SIGHTMARK® Ultra Shot A-Spec

Advanced optic performance: repeatable accuracy, ultra fast target acquisition, long battery life. 10 brightness settings, parallax correction (beyond 10 yards) and unlimited eye relief deliver a crisp, robust field of view. Lens: 33x24mm. Weight: 306g / 10.8 oz. Battery: CR123A.

54277 € 239,-

SIGHTMARK® Ultra Shot R-Spec

With a crisp, robust field of view and uncompromising reliability. Ultra fast target acquisition. Long battery life. 10 brightness settings, parallax correction (beyond 25 yards) and unlimited eye relief. Lens: 33x24mm. Weight: 303g / 10.7 oz. Battery: CR123A

54276 € 175,-

SIGHTMARK® Ultra Shot M-Spec LQD

Specially developed for tough applications: shockproof, dustproof, IP68 waterproof, recoil rated up to .50 BMG. Illuminated red 65-MOA circle-dot reticle with 10 brightness settings. Lens: 33x24mm. Weight approx. 289g / 10.2 oz. Battery: CR 123A

54278 € 389,-

SIGHTMARK® Flip-to-side mount T-3 LQD

Designed to mount directly behind a reflex sight or red dot, the versatile T-3 Magnifier allows a quick and easy way to magnify your sight picture by 3x and provides an absolute co-witness. Ideal for engagements up to 100 yards. Weight: approx. 310g / 10.6 oz.

54285 € 169,-

SIGHTMARK® Mini Shot M-Spec

Built for law enforcement officers and professionals, the compact Mini Shot M-Spec Reflex Sight is the perfect optic for competition shooting, hunting and LE applications on shotguns, pistols and AR's. The kit includes a low profile mount for shotguns and pistols along with a riser mount for AR platform rifles. 100% waterproof, durable aluminium housing with a steel protective shield. Extremely low power consumption, CR1632 battery. 3 MOA red dot reticle. 10 brightness levels. Ambidextrous digital switch.

Lens: 1x15 mm, weight: approx. 65 g / 2.3 oz.

54291 € 315,-

SIGHTMARK® Laser boresight

Sightmark offers the largest selection of in-chamber boresights on the market. Each boresight is constructed with high quality brass and are calibrated with three set screws in a roller to centre the laser diode to the housing. The roller ensures fine adjustments can be made so the boresight is truly centred. This ensures the boresight will accurately project a firearm's theoretical point of impact, no matter what.

AKAH Thermal Vision Target Pads

With the AKAH thermal vision target pads you have the opportunity to optimally set or calibrate the thermal imaging device.

The handling is very easy. The target pad remove from the pack and the foil on the back peel off and stick on a suitable target. Well can you make the settings on your thermal imaging device. The target pad reacts immediately after unpacking with the ambient air and heats up within a very short time about 40 °C. This reaction lasts for about 60 minutes depending on the ambient temperature.

The diameter of the adhesive surface is around 60mm heat-active surface measures approximately 50mm. The thermal vision target pads are packed double airtight. In addition, it protects outer packaging by a special coating that Pad from UV and sun exposure.

38965.000 à 10 target pads € 9,99

AMR Thermal Vision Target Pads

Optimal for calibration of guns with thermal scope

With the AMR Thermal Vision Target Pads the calibration of thermal imaging devices mounted to firearm optics is now possible in

a particularly efficient and cost-effective way.

The activation of the heat pad starts when exposed to air. The specific combination of the ingredients contained in the heat pads (especially activated carbon) ensures their automatic heating. The pad reaches its optimum calibration temperature of 38°C within a few minutes. Then target the heat pad with the thermal imaging device mounted to the optics of your rifle and optimise the thermal view. The round shape and small diameter of the pad allow spotting of unwanted shot deviations.

38960.000 box with 10 target pads € 9,99

Lahoux Horus

The Lahoux Horus is a multifunctional thermal imaging camera of the latest generation. It is defined by:

- Efficient power consumption - extremely efficient power supply - more than 10 hours of uninterrupted operation possible.
- 12micron technology installed.
- Momentary Zoom - the device is therefore always ready for use in attachment mode, and digital magnification can be used at lightning speed if required.
- Easy handling - simple operation of the device possible due to optimised key assignment.
- High Zoom Option - by using the latest system components, magnification with primary optics up to 10x is possible.
- DRI value: 2108 / 527 / 264 m

Night Vision

Lahoux Hemera

The new Lahoux Hemera's spear points are its compact size and large field of view while maintaining many LV-81 characteristics. This makes this clip-on an All-rounder especially suited for forest use at short and middle distances and stalking. The High-Contrast Lenses and the intensifier tube are mounted individually and shockproofed. The Lahoux Hemera features an auto-shutdown after one hour.

- Compact housing
- Long battery endurance, up to 30 hours
- Accuracy: < 29 mm at 100 m
- Field of view: 35,70 m at 100 m

 Made in the Netherlands

Hemera

Lahoux LV-81

Due to the long focal length of 80 mm, this device is particularly suitable for observation at longer distances. The objective lens with its special AR coating ensures high transmission values and an incomparably sharpness. The lens system and the built-in image intensifier tube harmonize optimally in terms of image quality and precision. All components have been designed and assembled to ensure the best possible shock resistance.

- bright 80 mm objective
- long battery endurance, up to 85 hours
- Accuracy < 29 mm at 100 m
- Field of view: 13,89 m at 100 m

LV-81

suitable for nightvision devices
as LAHOUX LV-81 and Hemera

Lahoux Helios IR illuminator

The Lahoux Helios IR illuminator works on LED basis. It supports the night vision device with very little residual light. Similar to a torch, the observation sector is illuminated and thus provides a brighter and sharper image. This light is invisible to the human eye because it works at a wavelength of 855nm. The spotlight is infinitely dimmable and focusable. Delivery incl. mount.

		effective illumination range	
50730.000	Helios Standard 855nm	< 500 m	€ 580,-
50731.000	Helios Pro 855nm	< 1.000 m	€ 729,-

recommended retail prices

Rusan Adaptor ring

suitable for clip-on devices as
LAHOUX LV-81, Hemera,
Horus or Clip

A fast and easy to use quick-release adaptor for mounting a night vision device to a primary optic. To make sure the primary optic is not damaged or scratched, the inside of the adaptor has a special layer. Comes with thread M52x0,75. The adaptors are available with a diameter of 30 mm - 67 mm. To determine the correct size the outer diameter of the primary optic is leading.

50732 € 169,-

suitable for clip-on devices as LAHOUX
LV-81, Hemera, Horus or Clip

Lahoux Magnification monocular + Insertion ring

The observation monocular is simply screwed onto the thread of the eyepiece and transforms the device into a hand-held observation device. With the aid of the insertion ring (available in different sizes), the magnification monocular can also be used in conjunction with the clamping adaptor ring.

50735	Magnification monocular	€ 128,-
50736	Insertion ring	€ 23,90

suitable for LAHOUX Spotter
thermal imaging devices

Lahoux Carrying Strap

Leica Calonox.

Wärmebildkameras für die zeitgemäße und waidgerechte Jagd.

1 Calonox View

2 Calonox Sight

Leica Calonox View.

Mehr sehen, sicher ansprechen.

Für alle, die Wild auf weite Distanzen finden und sicher ansprechen wollen, ist die Leica Calonox Wärmebildkamera View perfekt. Die Leica eigene Bildverarbeitung (Leica Image Optimization – LIO™) optimiert das Bild und erzielt besonders detailreiche Farbabstufungen, hervorragenden Kontrast und hohe Detailauflösung. Das Calonox View bietet 12 µm Pixelgröße bei hervorragender Temperaturauflösung. Das 42 mm Objektiv in Kombination mit der 2,5-fachen optischen Basisvergrößerung ermöglicht ein großes Sehfeld und besten Überblick. Mittels Digitalzoom bleiben auch auf großen Distanzen keine Details verborgen.

Vier Farbmodi für

kontrastreiche Detaillerkennung.

Die praxiserprobten Farbmodi White Hot, Black Hot, Red Hot und Rainbow sorgen für praxisnahe Darstellungsvarianten und eine größere, kontrastreiche Detaillerkennung.

Leica Calonox Sight.

Sicher erkennen, waidgerecht erlegen.

Sicher erkennen, sicher treffen. Wenn es darum geht, Wild in tiefster Nacht sicher anzusprechen und waidgerecht zu erlegen, ist das Leica Calonox Wärmebildvorsatzgerät Sight die erste Wahl des modernen Jägers. Es ist perfekt für die Anwendung in Verbindung mit einem Zielfernrohr und daher mit 1-facher Vergrößerung ausgestattet. Selbst auf Entfernungen bis zu 2.000 Meter erkennt das Kombigerät Wärmequellen und der High-End Vanadiumoxid (VOx) Sensor mit 384 x 288 Pixeln und 17 µm Pixelgröße liefert kontrastreiche, detailreiche Bilder in den vier Farbmodi. Das Drei-Tasten-Menü hilft dem Jäger, sich auf das Wesentliche zu konzentrieren und sein Ziel sicher zu treffen.

Maximale Präzision und Wiederholgenauigkeit.

Das Leica Calonox Sight zeichnet sich durch eine wiederholgenaue Treffpunktlage aus. Es kann dabei ganz einfach mit einem zum jeweiligen Zielfernrohr passenden Adapter verbunden werden. Das erstmalige Einschießen ist leicht und kann auf dem Schießstand selber ausgeführt werden.

Die hervorragende Erkennungsreichweite des Leica Calonox Sight basiert auf einem High-End Vanadiumoxid (VOx) Sensor mit 384 x 288 Pixeln und 17 µm Pixelgröße.

Leica APO-Televid Spektive.

Leistungsstark und kontrastreich.

1 APO-Televid 65W

2 APO-Televid 82W

Leica Hochleistungsspektive.

Die Leica APO-Televid Spektive mit ihren apochromatischen Objektiven nutzen moderne Fluoridglassorten für eine perfekte Abbildungsleistung. Dazu ist die innere Optik durch ein zusätzliches Frontlinsenglas geschützt. Die äußerst lichtstarken Objektive mit einem Durchmesser von 65 bzw 82 mm liefern extrem detailreiche Bilder. So ist eine erstaunlich ge-

naue Beobachtung selbst bei schwierigsten Lichtbedingungen möglich. Darüber hinaus sind die Spektive prädestiniert für die professionelle Digiskopie. Im Premium-Segment bietet Leica perfekt aufeinander abgestimmte Komponenten für eine Digiscoping-Einheit von höchster Qualität. Die passenden Digiscoping Adapter sind optimal auf die Leica APO-Spektive und die Leica Kameras abgestimmt.

SPYPOINT FLEX

The Spypoint Flex captures 33 megapixel photos and videos with 1080p audio.

Videos are displayed as animated previews in the Spypoint app and can be loaded into the app in full length. This makes the Flex the first Spypoint camera to transfer videos to the app. This gives the hunter even more information about activities in the area.

The newly designed antenna ensures even better reception. The Spypoint Flex has been optimized for use with the Spypoint app. With GPS, the map functions of the app can be used even better and more precisely. The camera needs a firmware update? No problem. Simply download the latest version via the app and load it onto the camera.

- New improved antenna
- 33 megapixel photo resolution
- 1080p videos with sound
- Video transmission to the Spypoint app
- adjustable trigger speed
- test & format button
- firmware update via app
- GPS enabled

AKAH-Leathergoods

World famous - unsurpassed - cannot be copied

Since 1853 **AKAH** is a synonym for high class handmade leather goods. Since 5 generations "Made in Germany" is the hallmark of the still family owned company in the Cologne area.

Facing food scandals, chemical allergies and air pollution modern human beings long for natural healthy resources. Clothing tends to use merely fibres from renewable raw materials. So more and more dog keepers want to buy collars and leashes made from hides of free-living animals.

Since 167 years hunters and dog friends can rely on toxin-free, vegetal tanning of AKAH leathers. AKAH merely uses hides from Alpine cows, Finnish moose and Mongolian yak bovines. They all tell the life story of a free-living creature with all its natural grains and scars. AKAH never over-sprayed this life biography.

Since centuries hand stitching is the highlight of leather manufacturing. AKAH saddlers are trained for 3 years in the art of sewing with 2 needles and 2 yarns at the same time.

Each hand stitched collar, each hand stitched leash is **UNIQUE** - made by a specialist saddler for one specific dog keeper.

AKAH-Service:

We laser your initials or your name to personalise (max. 30 letters).

Additional charge: € 3,-

Other possible laser motives are wild boar, stag or hunting dogs.

Additional charge: € 5,-

AKAH Gun Slings

MADE IN
GERMANY

The manufacturing of gun slings is one of the specialties of the AKAH saddlery since 1853. There is worldwide no better and more experienced manufacturer.

Handmade by AKAH saddlers: Where the sling has to carry the full weight of the gun, we use only traditional hand-stitching.

Leather: We use only ecological tanned leather: no chemicals, no allergic risk, no environmental stress - nature pure!

25 mm width, **beautiful gloss**, 2 leather-covered buckles and with stippled rubber lining.
Length: 96 cm.

Moose Leather

MADE IN GERMANY

ELCHLEDER

Moose leather is smooth and soft - even at very cold days. It protects the dogs hair and the palms of the dog keeper. In the inside there is an invisible cord - made of an extremely sturdy braided polyester cord with a breaking load of 1.1 tons - the products are extremely strong and long lasting. All hooks, pliers and rings are fitted with

hand seams. AKAH moose leather is naturally tanned in Finland. **This is 100% pure nature!**

Sensation Olive Tanned Leather

MADE IN GERMANY

New

Since hundreds of centuries olives are used for food, for cosmetics or as medicine. The leaves of the trees were burnt after harvesting - tons of CO₂ occurred.

German ingeneers invented a patented tanning extract from the fallen leaves - thus avoiding salts, chrome and sulfur in the leather hides. The same ingredients as in extra virgine oil or olive cosmetics now tan natural cow hides.

Olive leather so was awarded with "Dermatest", "Gold Rated Leather" and "cradle to cradle".

Enjoy our dog's accessories with olive leather. You even might smell the Italian odor of fresh olives.

Bark tanned leather - has been approved for centuries

unsere Jagd
Test 5/2021
Best craftsmanship and extremely hard-wearing.

Handcrafted leather dog leashes

AKAH cuts these leashes out from extra long pieces of core leather. Then our craftsmen sew these pieces per hand straight and plain together. Doing a leash this way is quite expensive, because we use only leather from the small back of the skin and not of the lower quality piece from the belly part of the hide. Cheap leashes are cut spirally from the entire cow hide (including flanks and belly). They deform when used. grain leather hand crafted and hand stitched buckle holders.

AKAH specialists are worldwide well known for making muzzles in which dogs feel comfortable.

1 Muzzle BORK

This top model, handmade by AKAH saddlers, is a **special construction for dogs „GERMAN SHEPHERD“**. It fits 100% to this species of dog.

AKAH guarantees safety only for the original species of „GERMAN SHEPHERDS“

To make sure that other species of dogs feel comfortable with our muzzle and to protect their owners, we need the special measurement of their heads and noses, according to the sketch below:
Length: 35-60 cm

Stock N°	Size	
96260.006	6	€ 186,-
96260.007	7	€ 186,-
96260.008	8	€ 192,-
96260.009	9	€ 192,-
96260.010	10	€ 196,-

1 Muzzle MECHELAAR

like model Bork, **only for Meche-laar dogs.**

Stock N°	Size	
96259.005	5	€ 185,-
96259.006	6	€ 185,-
96259.007	7	€ 186,-
96259.008	8	€ 186,-

Please measure from the tip of the nose to the back of the ears.

Sizes for muzzles

Sizes	5	6	7	8	9	10
cm	20	23	26	29	31	33

Training muzzles / agitation muzzles

- The muzzle is lightweight even when wet and does not hinder the dog.
- The risk of injury to handler and dog from rivets, splints or buckles is extremely low.
- The air supply is always guaranteed even under difficult conditions (e.g. dog digging in damp soil).
- Easy care construction.
- Due to its construction, the muzzle is less likely to require repairs.

WAIDWERK

Der Jagdhelfer

CAN BE LEFT IN THE WOODS

1 WAIDWERK Concentrate for Blood Trails

Produced in a special procedure out of natural blood, by spray-drying at 300°C to get natural proteins in powder without additional synthetic smell or flavour. The concentrate has to be diluted with water in proportions of 1:15 to 1:20. A very intensive smell of blood is produced and can only be perceived by the dog. If the young dog is trained exclusively with WAIDWERK blood concentrate during the basic training. Later natural misleading trails will cause less problems.

450 g **96452.001** (1 kg = € 75,-) **€ 33,75**

2 WAIDWERK Scent Shoe Classic

Made of highly elastic PU foam for comfortable laying cold tracks. The sole of the scent shoe is equipped with several threads M5. In case the track is laid in difficult terrain soccer studs (not included) can be screwed into these holes. Suitable for fixing hoofs of deer and boar.

1 pair **96450** **€ 129,90**

3 WAIDWERK Marking Tape

The marking tape can be used to mark shot game, wounded game, or tracking course. 20 mm width, coil of 75 m length. Available in red or yellow. In the woods red can be seen best. For hunters with a red/green-weakness or to mark two different tracks, the yellow tape is recommended. The tape can be left in the woods because it will decay quickly and completely.

Red marking tape **96470.001**

Yellow marking tape **96470.002**

Blue marking tape **96470.003**

each **€ 3,10**

4 WAIDWERK Training Duck

Same size, weight and appearance as a real duck. Pending head of solid plastic, body of soft plastic - this enabling the retriever dog to carry the duck smoothly. Perfect training for examinations. Dummy can swim. Minimum need of real animals for training.

45 cm length **96464** **€ 49,90**

5 WAIDWERK Game Dummy Rabbit

Newly developed Game Dummies made of dyed PU-foam. The colour will not come off; the dummy will not discolour. All parts are replaceable if needed. You can make the head or back part "hang" by loosening the clamping rings. In this way you can make the dummy look realistic like dead deer. Between the front and back parts you can put metal disks to make the dummy heavier. In the middle part, there are 2 holes to insert pieces of felt which can be treated with the corresponding scents. Using these dummies all training exercises can be realized to prepare the dog for hunting trials.

3 parts, 0,75 kg **96461** **€ 49,90**

1 GRABBER® Warmers

GRABBER® has the head-to-toe solution to keep you toasty and comfortable, no matter the temperature. All GRABBER® Warmers are designed for one-time, disposable use. Clean, safe, odourless, dry and nontoxic heat source. Air activated. Lasts several hours.

GRABBER	heat approx.	durance.	pcs.	Stock N°	Price:
hand warmer	57-70 °C	7 h	2	69150	€ 1,80
body warmer adhesive	57-70 °C	12 h	1	69155	€ 1,80
toe warmer	38-42 °C	6 h	2	69151	€ 1,90
foot warmer	38-42 °C	5 h	2	69154	€ 5,-
	size small / medium			69153	€ 5,-

The warmer starts the warming action when it is exposed to air. The chemical reaction stops when the ambient temperature is less than 1-2° Celsius and the warmer stays cold. To guarantee the optimal heating it is suggested to open the outer packaging a few minutes before using and leave the warmer at room temperature.

2 Gasheater PORTABLE BUDDY

Indoor safe, CE certified for use with Propane gas and Butane gas blended fuels (EN417 thread). Connects directly to disposable propane or butane fuel cylinders. Automatic shutoff system when low oxygen or accidental tip-over. Heats up to 21 m². Swivel regulator and single control heat setting. Runs approx. 5,4 hours with one cylinder. Power 1,2-2,4 kW

"Learn the voices of the animals
and you are the master in your district."

Klaus Weisskirchen

Blam M. M. M. M.

WEISSKIRCHEN Roe Deer Call Made of Precious Wood*

Roe deer call with one reed. What makes the Weisskirchen roe deer calls so special is the precious wood (wenge) with its high specific density (insensitive to moisture) and the platinum interlaced silicone rings. This makes it possible to imitate all sounds of the female roe deer. The roe deer calls are treated with liquid beeswax.

70872.000 € 41,20

WEISSKIRCHEN Roe Deer Call Made of Precious Wood with Mouse Pipe*

It functions like every call with two reeds. The mouse pipe included in the set will be very helpful at many unexpected situations during the hunt because foxes as well as wild boars react to it.

70873.000 € 54,30

WEISSKIRCHEN Wild Boar Call*

You can also imitate the rutting call of the fallow deer with the help of the Weisskirchen wild boar call. Also the angry growl of the Cape buffalo and, after removing the hose, the call of chamois buck is possible.

71401.000 € 41,20

WEISSKIRCHEN Crow Death Call*

You can imitate the death or distress call of a crow with this call. Also works very well with magpies! If one of them is dying, the others come to the funeral. Made of German cherry wood, that guarantees a perfect sound.

71408.000 € 40,-

WEISSKIRCHEN Stag Call*

The special material mix makes the sound of the Weisskirchen stag call so natural. With this stag call you can imitate all the sounds of the stag, instructions on DVD.

71403.000 € 99,50

*Scan QR-Code
for video tutorial:

WEISSKIRCHEN Hare Distress Call with Mouse Pipe*

With this instrument you can imitate the distress call of a hare very authentically. The technical modifications inside make it possible to produce the natural sound. With a built-in mouse pipe. Also suitable for raccoon dogs. Made of German cherry wood, that guarantees a perfect sound.

71407.000 € 32,50

WEISSKIRCHEN Fox Rut Set*

Fox barking call and fox flute as a set. With detailed instructions.

71402.000 € 41,20

WEISSKIRCHEN Bleep Call for Roe Deer*

Bleep call made of German cherry wood with a very durable female thread. With instructions and lanyard. You can imitate the fawn bleep, barren doe bleep, doe bleep and bothered doe bleep.

70871.000 € 32,50

WEISSKIRCHEN Bird Distress Call*

Triad bird distress call made of German cherry wood. Suitable for all carnivorous predator game and other predators. With lanyard and instruction.

71410.000 € 41,20

WEISSKIRCHEN Crow Call*

Hold the call with your palm, blow slightly, and open and close your palm in turns so you can imitate the short and coarse crow warning sound (for example when the crow sees a fox). Take off the small piece of plastic and the sound becomes sharper.

71406.000 € 30,30

WEISSKIRCHEN Stag Call Made of Ox Horn 40 cm*

Apart from the triton shell, the ox horn was the favourite instrument of the famous stag hunter Count Georg zu Münster. The holder was left off by choice because it would affect the sound.

Use insect repellents safely. Before use always read the label and product information.

Dragging aids

1 AKAH Dragging Aid up to 350 kg

It helps to drag game up to 350 kg and works like a pulley block, adjustable, mini weight. **Made of BIOTHANE:** strong, durable, and pliable - a material that needs no maintenance, won't rot, crack, or get stiff in wet weather. If it gets muddy and dirty, just rinse it in water and wipe it off. Length: 3 m.

61506

€ 62,90

2 AKAH Game Drag

This drag aid made of a 8 mm Biothane round cord can withstand loads of up to 340 kg. The massive handle made of rubberized aluminium with a diameter of 28 mm allows the dragging of heavy game even with two persons and thus a force distribution. The 160 cm long drag aid is universally adjustable and can be shortened.

61500

€ 46,90

3 Heavy duty Gambrel hoist lift system

Easy to assemble. Approx. 200 kg hoist capacity if gambrel is used separately. With nylon rope.

69973

€ 29,50

4 All Purpose and Game Tub

This multi-functional tub is built with vats like a sleigh to make it easier to pull it. A smooth surface makes cleaning an easy task. Eyed four times to pull a rope through and with two loops for handling. Made of resilient PE material, food-safe, temperature safe from +70°C to -70°C, nearly unbreakable. Weight 4,8 kg. Made in Germany. Approx. 90,5 x 59 x 21 cm

68170

€ 129,90

5 FLEXI foldable Game Bag

Advantages of the foldable game bag FLEXI: lightweight and durable, foldable to a compact size, adjustable in size, keeps your car clean, helps you to carry the game very comfortable to your car, easy to clean. Best pricing. 100 x 80 x 30 cm.

Tetra® Gun Action Blaster^{b, c}

Maximum strength firearm cleaner / degreaser. Liquefies and eliminates carbon fouling. Quick evaporating solvent. Extremely economical and efficient. Black powder bore cleaning capability. Maximum cleaning power for all firearms. It is safe for all polymers, plastics, and metals. Blasts away dirt, grit & fouling. Cleans & degreases. No disassembly required. Safe for all synthetic firearm finishes.

72652 500 ml Action Blaster € 12,49 (1 l = € 24,98)
72654 300 ml Synthetic Spray® € 13,10 (1 l = € 43,67)

Danger. Pressurised container: May burst if heated. Harmful if swallowed. Causes serious eye irritation. Causes skin irritation. Action Blaster: Suspected of causing cancer. Synthetic-Safe Spray: Suspected of damaging fertility or the unborn child. Harmful to aquatic life with long lasting effects.

Tetra® Gun Copper Solvent^{b, c, d}

Quickly removes all contaminants from firearm barrels. Use as the first step in bore conditioning. Fast acting, extra strength formula. Won't "etch" the barrel. Removes: copper, lead, plastic, carbon, dirt.

72657.120 120 ml € 8,95 (100 ml = € 7,46)
72657.240 240 ml € 14,49 (100 ml = € 6,04)

Danger. Causes severe skin burns and eye damage. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. May cause respiratory irritation.

PERFORMANCE LUBRICANTS AND SPECIALITY PRODUCTS

Tetra® Gun Grease

Protect metal-to-metal surfaces with this heavy duty fluoropolymer grease. Widest operating temperature range -100°F to 750°F. Bonds to metals; smooths and protects. Reduces friction. Won't migrate. Excellent for use on rifle bolts, sears, locking lugs and semi-auto slide/rails.

72655.030 30 g € 9,80 (100 g = € 32,67)

Tetra® Gun Lubricant

Fluoropolymer penetrating lubricant and bore conditioner. Widest operating temperature range -100°F to 750°F. Migrates to hard-to-reach places. Reduces friction, wear and fouling. Provides rust protection. Bore conditioning for increased velocity.

72650.030 30 ml € 7,40 (100 ml = € 24,67)
72650.120 120 ml € 11,60 (100 ml = € 9,67)
72650.240 240 ml € 17,10 (100 ml = € 7,13)

Tetra® Gun Cleaner & Degreaser^e

The latest technology for routine, safe firearms cleaning in a water-based form. Easy-to-use pump spray for hard-to-reach locations. Cleaning & degreasing power, for most light duty jobs. Safe to use, no harsh solvents. Environmentally friendly, mild odour. Won't harm finishes, wood, rubber or plastics/polymers. Just spray, wipe off and you're done!

72660.000 120 ml pump spray € 9,29 (100 ml = € 7,74)

Warning. Harmful to aquatic life with long lasting effects.

Tetra® Gun Lubricating Cloth

Protects against rust. Convenient dry lubrication. Polishes metal surfaces. Removes fingerprints & residue. Long-lasting formula.

72648 € 7,90

Tetra® Gun Lubricant Wipes

Lubricating wipes for muzzleloaders and modern guns. Drives out moisture. Provides immediate protection to your valuable and rust. Prone firearms.

72650 box à 50 wipes € 8,50

Tetra® Gun Stock Finishing Kit^{a, b, c, e}

A natural, rich walnut finish for any stock. The complete Gun Stock Finishing Kit brings out the natural beauty in wood stocks. Kit Contents: Walnut Stain 3 oz., Gun Stock Finish 3 oz., Service Cloth, Sandpaper (120, 280, & 400 grit)

72505.000 € 19,50

Danger. Flammable liquid and vapour. May be fatal if swallowed and enters airways.

Tetra® Stock Oil

72505.060 60 ml € 6,60 (100 ml = € 11,-)

Tetra® Gun Liquid Blue^{d, e}

For steel touch-up and complete re-blue. New additive package further enriches colour and reduces achievement time. Excellent for scratches and touch-ups. Easy to use, non-streaky!

72659.000 90 ml € 9,80 (100 ml = € 10,89)

Danger. Causes severe skin burns and eye damage. Very toxic to aquatic life with long lasting effects.

Please note numbering of products.

1

1 Universal Oil

For maintaining metal, wood, leather, rubber, synthetic material, even skin and hair. Ballistol protects weapons from corrosion, lubricates, cleans and acts against residues of powder, lead, copper and tombac. It creeps into finest fissures and dissolves old soilings and resins of unsuited oils. It neutralises combustion residues. It also cleans, maintains and preserves the wooden stock and leather gunslings. Neither its use nor its natural decomposition will pollute the environment.

Oil 50 ml	72800.005	(100 ml = € 7,20)	€ 3,60
Oil 500 ml	72800.050	(1 l = € 31,98)	€ 15,99
Oil 5 litre	72800.500	(1 l = € 30,-)	€ 150,-
Spray 50 ml ¹	72801.050	(100 ml = € 8,78)	€ 4,39
Spray 200 ml ¹	72801.200	(100 ml = € 4,30)	€ 8,60
Spray Vario Flex 350 ml ¹	72801.350	(100 ml = € 4,29)	€ 15,-
Spray 400 ml ¹	72801.400	(1 l = € 35,75)	€ 14,30
Pump spray (empty) 650 ml	72802.650		€ 7,90
Applicator 15 ml	72803.000	(100 ml = € 44,-)	€ 6,60

Aerosol packaging: Danger. Extremely flammable aerosol. Pressurised container: May burst if heated.

2

3

2 ROBLA Cold Degreaser

Oil and grease are 100% removed from metallic surfaces, even persistent remainders of grease and resin will disappear without any problems.

Spray 50 ml^{1,2,4} **72905** (100 ml = € 9,98) **€ 4,99**

Spray 200 ml^{1,2,4} **72906** (100 ml = € 3,60) **€ 7,20**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.

3 GUNEX Gun Oil

The perfect oil for the long-term preservation of bare metallic parts, even in extreme conditions (-50°C up to 100°C). Gunex Gun Oil removes powder and tombac residues, ensures that the complete mechanisms of the arm runs smoothly.

Spray 50 ml¹ **72804.050** (100 ml = € 9,98) **€ 4,99**

Spray 200 ml¹ **72804.200** (100 ml = € 5,-) **€ 9,99**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Toxic to aquatic life with long lasting effects.

4

4 Robla Solo MIL

Barrel cleaner for extreme residue. Robla Solo MIL consists of very special compounds including ammonia. This formula has not only the power to dissolve any residue of copper, tombac and zinc but also lead, the number one enemy to the precision of a gun. Steel, chrome and nickel are not attacked.

Flask 65 ml^{2,3} **72925.065** (100 ml = € 9,52) **€ 6,19**

Danger. Contains ammoniac. Causes severe skin burns and eye damage. May cause respiratory irritation.

5

5 Vaseline Gun Grease

This lubricant for guns is free from resin and acid, is of finest white quality and ideally suitable for lubricating internal and external metal parts, above all of barrels. Lubricates and protects all metal parts as well as locks and mechanisms.

Tin 70 g **72756.070** (100 g = € 12,13) **€ 8,49**

6 Quick Browning

Easy and problem-free browning of weapons and small parts. It guarantees permanent and wear-resistant browning. Does not work on steel containing more than 3% Chromium.

Flask 50 ml^{2,3,4} **72950.000** (100 ml = € 29,98) **€ 14,99**

Danger. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage.

7

8

9

7 Plastic Cleaner

Powerful cleaner for plastic gun parts, for rifles and handguns, and for gun cases and bags. Thoroughly removes stubborn dirt, grease, soot / gun-shot residue and adhesive residues. Particularly compatible and biodegradable. Suitable for carbon and aluminium surface.

Flask 150 ml **72962.150** (100 ml = € 5,33) **€ 7,99**

8 Cleaner for Gun Parts

For cleaning and degreasing firearm parts. Neutral to all materials, without damaging browning, strong spray beam. With plugged on nylon brush. Ventilates residue-free, acetone-free, pleasant scent.

Spray 250 ml^{1,2,4} **72961.250** (100 ml = € 3,52) **€ 8,80**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. May cause drowsiness or dizziness. Toxic to aquatic life with long lasting effects.

9 Silencer cleaner

For silencers/suppressors and sooty gas pressure systems. Dissolves and neutralizes combustion residues automatically. Contains surfactants, is gentle on materials, acid-free and odourless. Colour change as dissolving indicator. No need to use other tools.

Flask 500 ml^{2,3} **72930.050** (1 l = € 35,-) **€ 17,50**

Can 5 l^{2,3} **72930.500** (1 l = € 23,20) **€ 116,-**

Danger. Causes serious eye irritation.

Please note numbering of products.

10

10 GunCer Gun Tuning Spray

Special mixture of ceramic additives provide maximum performance and safe shot accuracy. Reduces friction and deterioration of the firearm. Excellent corrosion protection, prevents fretting corrosion. Works in a temperature range from -40°C to +210°C. Ceramic additive even ensures lubrication up to +1000°C. Water resistant & non-resining. Without additions of silicon and PTFE.

Spray 50 ml ^{1,2} **72829.050** (100 ml = € 10,98) **€ 5,49**

Spray 200 ml ^{1,2} **72829.200** (100 ml = € 9,15) **€ 18,30**

Liquid 65 ml ² **72829.065** (100 ml = € 11,22) **€ 7,29**

Attention. Aerosol packaging: Danger. Extremely flammable aerosol. Causes serious eye irritation. Pressurised container: May burst if heated.

11 GunCer Gun Grease

The high-performance special GunCer gun grease offers the highest wearing and corrosion protection for treated components. It is neutral towards plastic, paint, wood and browning. The white, odourless special grease is resin and acid-free and does not contain PTFE or silicone. Emergency running properties are ensured by the ceramic additive. Very good adhesion without sticking or resinifying!

Tube 10 ml **72829.010** (100 ml = € 93,-) **€ 9,30**

16

16 Ballistol Quick-Browning Kit

The whole process continues 10 minutes from preparation until completion. Contains: Universal Oil (Spray 50 ml), Robla Cold Degreaser (Spray 50 ml), KLEVER Quick Browning (50 ml), 2 pairs of nitrile gloves, 2 Goat Hair Brushes and 2 Cleaning Cloths.

Ballistol Quick-Browning Kit ^{1,2,3,4} **72952** **€ 35,-**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage. Causes skin irritation. May cause drowsiness or dizziness. Harmful to aquatic life with long lasting effects.

12

12 Cleansing Tow Hemp/Silk

For cleaning and polishing the barrel.

Box 75 g **72712** (100 g = € 8,65) **€ 6,49**

Sucolin sub calibre and spherical barrels (white) Box 75 g **72727** (100 g = € 8,52) **€ 6,39**

13

13 Silicone oil

Ideal for parts made of rubber, plastic and metal. The silicone oil protects and lubricates and by the high surface adhesion, the oil film remains long time without sticking. Silicone gun oil from Ballistol is also used for maintenance of CO2 guns and airsoft guns. Plastics regain their natural appearance and are protected from drying out and embrittlement. The silicone gun oil prevents trouble when reloading, accelerates airsoft bullets, preserves the elasticity of plastic parts and is reliable at low temperatures.

Silicone oil, 65 ml **72805** (100 ml = € 7,68) **€ 4,99**

14 Airsoft-Gas

Airsoft guns are protected thanks to the silicon oil that this product contains and they also stay smooth without being blocked in the event of light frost. The Airsoft-Gas can also be used at low temperatures and is odour-neutral. The containers can be recycled after use without any problem.

Flask 500 ml ¹ **72960.500** (1 l = € 25,78) **€ 12,89**

Flask 750 ml ¹ **72960.750** (1 l = € 22,52) **€ 16,89**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated.

17

17 BALSIN stock oil

The stock becomes water-repellent and weather-proof again without losing its natural respiratory activity. Simultaneously, Balsin wood care oil regenerates and intensifies the veining of the wood and gives it a darker shade.

Flask 50 ml ¹:

Bright **72898.001** (100 ml = € 11,98) **€ 5,99**

Red-Brown **72898.002** (100 ml = € 11,98) **€ 5,99**

Dark brown **72898.003** (100 ml = € 11,98) **€ 5,99**

Dose 500 ml ¹:

Bright **72898.501** (1 l = € 59,80) **€ 29,90**

Red-brown **72898.502** (1 l = € 59,80) **€ 29,90**

Dark brown **72898.503** (1 l = € 59,80) **€ 29,90**

Danger. Contains ethanol. Highly flammable liquid and vapour.

14

15

15 Ballistol Gun Care Set

The Ballistol gun care set features everything needed for in-depth maintenance of weapons. With 2 weapon cleaning instruments. Contains: Ballistol Universal Oil (Spray 200 ml), Robla Solo MIL (65 ml), BALSIN Stock Oil bright (50 ml), GunCer Gun Grease (Spray 50 ml), Cold Degreaser (50 ml), Quick-Browning (50 ml), 2 goat hair brushes, a cleaning brush, and 2 fluff-free cleaning cloths.

Box ^{1,2,3,4}

72955 **€ 69,-**

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Harmful to aquatic life with long lasting effects. Very toxic to aquatic life with long lasting effects. Contains ammonia. Contains ethanol. Contains selenium oxide and nitric acid. Harmful if swallowed or inhaled. Causes severe skin burns and eye damage. Causes serious eye irritation. Causes skin irritation. May cause respiratory irritation. May cause drowsiness or dizziness. Highly flammable liquid and vapour.

18

18 Original Scherell's SCHAFTOL

The leading quality product for gun stock care and preservation is sold in a variety of colours and sizes. Available in 4 shades for any oiled gun stock. Contains a minor quantity of silicone additive and is based on highest quality natural seed oils.

Flask 50 ml with application sponge

Colourless **72892.001** (100 ml = € 17,58) **€ 8,79**

Dark **72892.002** (100 ml = € 17,58) **€ 8,79**

VFG weapon CARE

VFG RIFLE CLEANER – a pure natural product.

All the systems have a common feature in that cleaning, conservation and de-oiling of the barrel are done with wool felt elements. VFG rifle cleaners made of high-quality wool felt are manufactured from natural sheep's wool fibres with viscose.

- Felt is a natural product and does not contain any chemical substances.
- Felt is a textile product and is therefore harmless, gentle and effective for guns.
- As a carrier for polishing agents, it helps in cleaning the metallic surfaces to a bright polish.

COMFORT and INTENSIVE – what is the difference?

We recommend wool felt VFG rifle cleaner COMFORT for mild dirt accumulations or for oiling and

de-oiling. VFG rifle cleaner INTENSIVE makes the whole cleaning far easier in case of heavy dirt accumulations or deposits with its additional insert made of brass fibres.

The rifle cleaner INTENSIVE combines the advantages of wool felt with that of bronze brush or steel wool and is therefore every abrasive, elastic and absorbable. It guarantees even more efficient cleaning of the inner sides of the barrel or even cartridge chambers in revolver cylinder. As a result, it frees you from using cleaning brushes, steel wool or similar severely abrasive cleaning tools. The VFG rifle cleaner INTENSIVE will penetrate deep into the grooves of the rifle due to its optimal bore size, material thickness and elasticity, absorbs dirt particles thanks to its porous surface structure.

VFG MATCH-SET POCKET

The Pocket Size Cleaning Kit for Sporting Firearm. It is quick and simple to operate: push the wire through the barrel, fix the barrel cleaner on the adaptor and pull the wire through the barrel with the help of the grip disc. Repeat this procedure three or four times - and you're done. Oiling and de-oiling works the same way.

Length: 170,5 mm
For cal. 4.5 mm

72222 € 35,50

VFG weapon CARE

MULTI DRY Dehumidifier

The natural granules memory holds up to 600 ml of moisture without dripping. Reusable after regeneration in the oven.

Ideal for the gun safe.

65360 € 15,20

Please note:

Cleaning rods for cal. 7 mm and smaller have outside thread, yet their accessories inside thread. Cleaning rods for cal. 8 mm and larger (except cal. 9 mm Flobert and cal. .44) have inside thread. The accessories have outside thread.

1 PSS X-TREME PROTECT

Wild boar hunt protection pants

In the development of the new X-treme Protect wild boar hunt protection pants, PSS had the task to create a powerful product for professional searching. Features such as safety, robustness, comfort through freedom of movement and respiratory activity were the main focus.

Elastic stretch materials and athletic cut create real freedom of movement. The simple but elegant design does without many seams and therefore has few points of attack.

Upper: Front: 83% Polyamide, 17% polyester (Vectran).
Back: 90% Polyamide, 10% elastane. Lining: 100% Polyester.
Stab protection: 83% Polyethylene, 10% polyester, 7% elastane (Lycra)

red:

89970 046-064, 024-030*, 94-110* from € 439,-

green:

89958 046-064, 024-030*, 94-110* from € 439,-

THE PROTECTING

Vectran

High cut kidney protection, flexible stretch waistband

Ventilation at the waistband

Side pockets with dirt repellent Cordura cover. Zipper can be opened from the bottom to the top, to prevent accidental opening by itself.

Side pocket from Cordura for smartphone

3M reflectors

Proven "air" ventilation system

100% Cordura reinforcements at the knee

Cordura leg reinforcements, waterproof

Removable gaiters

Buttons for suspenders

In the front leg area the pants are equipped with a **100% waterproof, steam-open RainTex membrane**. For better protection against wetness, the membrane reaches down to the rear calf area. As a result, the outer fabric can not be absorbed with moisture.

Durchstoßprüfung

EN 13567

Safe as never before: we reach up to 900 Newton with the all-round protection in the average.
Certified in Germany for breakthrough resistance.

In following areas:

Front:

- thighs
- knee and shinbone

Back:

- thighs
- knee throat
- calves

The stab protection material **WILD PROTECTION** "Made in Germany" provides also a cooling structure and therefore a lower heat sensation on the skin.

2 PSS SUSPENDERS for buttoning

Robust and elastic, for X-treme Protect trousers. Width: 5 cm.

Fabric: 53% polyester, 36% polyamide, 11% elastane

89968.000 length: 75 cm € 34,-

89968.001 length: 95 cm € 34,-

3 PSS RAINTEX® PROTECT impregnating spray

This impregnation is ideal for forestry and outdoor wear as well as for shoes. It makes leather and fabric water- and dirt-repellent without changing the perspiration. Also for Sympatex and Gore-Tex fabrics.

89980 500 ml (1l = € 35,-) € 17,50

Danger. Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. May be fatal if swallowed and enters airways. Toxic to aquatic life with long lasting effects.

3

Safe as never before: we reach up to 697 Newton with the all-round protection in the average.
Certified in Germany for breakthrough resistance.

In following areas:

Front:

- chest
- belly
- upper arm & forearm

Back:

- lower back

JAGDAROMEN

BLACK FIRE ORIGINAL

★★★
BEST
SELLER

Beliebter Jagdduft für Wildschweine. Eine Mischung aus Buchenholzter und Aromen, um Wildschweine in Jagdgebiete zu bringen.

BLACK FIRE INVISIBLE

HOCHKONZENTRIERTE
WILDSCHWEINBOILIES

Black Fire Invisible ist eine neue Form von Aromen für Wildschweine. "Unsichtbare" Boilies verschmelzen mit dem Untergrund und verbreiten einen konzentrierten Duft.

BLACK FIRE

“

Von leidenschaftlichen Jägern zu leidenschaftlichen Jägern. Dr. Black Fire hat sein Leben der Entwicklung seiner bestmöglichen Version von Black Fire Original gewidmet. Er verbrachte Jahre damit, sorgfältig die Mischung und das Verhältnis der bestmöglichen Zutaten auszuwählen, die er finden konnte. Und Black Fire wuchs zu dem, was es heute ist. Mit über 10 verschiedenen Produkten deckt Black Fire alle notwendigen Aromen für die Jagd auf Wildschweine, Hirsche, Rehe, Raubtiere und andere Wildtiere ab.

DR. BLACK FIRE

BLACK FIRE SPECIAL

WILDSCHWEINSALZ
-AROMA

Black Fire Special ist ein Wildschweinduft auf Buchenholz- und Salzbasis mit zusätzlichem Anisaroma.

BLACK FIRE SPRAY

DUFTBOOSTER FÜR
WILDSCHWEINE

Black Fire Spray ist ein praktischer Duftverstärker, um die Düfte in Ihrem Jagdgebiet zu verstärken. Verwenden Sie es auch zusammen mit Black Fire, Black Fire Spezial, Mais oder anderen, um den Geruch noch weiter zu verstärken.

Stocking dealer

All catalogue items can be supplied by your dealer.
